

FRONT PANEL

Treats up to 8,000 sq. ft.

**INSECT CONTROL PLUS  
LAWN FERTILIZER**

Controls Certain White Grubs, Chinch Bugs, Brown Dog Ticks, Cutworms and other insects in lawns and turfgrasses.

Keeps grass green longer with fewer clippings when compared with soluble fertilizers.

Contains the controlled-release nitrogen used on 70 of America's top 100 golf courses.

**ACTIVE INGREDIENT**

Chlorpyrifos (O,O-diethyl-O-(3,5,6-trichloro-2-pyridyl) phosphorothioate.....

0.64%

**INERT INGREDIENTS.....**

99.36%

U.S. Patent No. 3,244,586

EPA Reg. No. 557-1980

EPA Est. No. 557-FL-1

-----  
**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**STATEMENT OF PRACTICAL TREATMENT**

If on skin: Wash with soap and water.  
If in eyes: Flush with plenty of water.  
See back panel for additional precautionary statements.  
-----

NET WT. 18 LBS. (8.2 kg)

**BEST AVAILABLE COPY**

Treats up to 5,000 sq. ft.

GUARANTEED ANALYSIS

Total Nitrogen (N).....	32.0%
0.8% Ammoniacal Nitrogen	
30.2% Urea Nitrogen*	
1.0% Water Insoluble Nitrogen	
Available Phosphoric Acid (P <sub>2</sub> O <sub>5</sub> ).....	2.0%
Soluble Potash (K <sub>2</sub> O).....	4.0%
Sulfur (S).....	2.5%
2.5% Sulfur, free (S)	
Iron (Fe).....	1.0%
Derived from ammonium phosphate, urea, sulfur coated urea, isobutylidene diurea, muriate of potash, and iron oxide.	
*6.8% slowly available urea nitrogen from sulfur coated urea.	

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly after handling. Wash contaminated clothing before reuse. Harmful if swallowed. Do not take internally. Keep children and pets off treated areas until product is washed into the soil and grass is dry.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

ENVIRONMENTAL HAZARD

Do not apply directly to water. Keep out of lakes, streams or ponds. Do not apply where run-off is likely to occur. This product is toxic to fish, birds and other wildlife. Do not contaminate any body of water by cleaning of equipment or disposal of wastes. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**LAWN AND TURF AREAS:** To control Chinchbugs, Sod Webworms, Ants, Brown Dog Ticks, Crickets, Cutworms, Earwigs, Grasshoppers and Sowbugs (Pillbugs), apply the contents of this bag uniformly over 5,000 sq. ft. using the spreader setting shown below, followed IMMEDIATELY by thorough watering to carry the active ingredient into the zone of insect infestation.

**BEST AVAILABLE COPY**

## REAR PANEL (DIRECTIONS FOR USE CONT.)

To control certain white grubs (larvae of European Chafer and Japanese Beetle), apply the contents of this bag uniformly over 2,500 sq. ft. using the spreader setting shown below, followed IMMEDIATELY by thorough watering. For best results, treat when grubs are young and actively feeding near the soil surface, usually during late July and August. Consult your local Agricultural Extension Service specialist for best time to treat in your area.

Repeat as necessary if re-infestation occurs.

### Broadcast Spreader Settings

For best results, apply in a circular path starting on the outside and working toward center. A little overlap of product will insure complete coverage.

SPREADER	18 lbs./5,000 sq. ft.	18 lbs./2,500 sq. ft.
Central Broadcast 600	4 1/4	4 3/4
Cyclone	4	4 1/2
Ortho Broadcast 6000	2 1/2	3 1/4
Precision Broadcast	4	4 1/2
Scotts Broadcast ERZ	E-F	F-G
Sears Broadcast	4	4 1/2

### Drop Spreader Settings

First, apply 2 border strips along the edge of each end of the lawn. Then apply product along the length of the lawn, overlapping slightly, and shutting off spreader before turning as you reach the edge of the border strips.

SPREADER	18 lbs./5,000 sq. ft.	18 lbs./2,500 sq. ft.
Central Drop 550	10	11 1/2
Greenview Drop	7	9
Ortho Drop 5000	7	8
Precision Drop FH22	9	10 1/2
Scotts Drop PF-1	5	6
Sears Drop	10	11 1/2

Note: Spreader rate varies with walking speed, check spreader over known area. Close spreader openings when loading, turning or when stopped. Hand spreading is not recommended. Clean spreader after each use. Remove spillage promptly by sweeping.

Approximately 4 weeks after initial treatment with product, an application of 16% or higher nitrogen fertilizer should be made at a rate of 6 lbs. per 1,000 sq. ft. and watered in well.

-----  
**Storage:** Store in original container in safe, dry place.  
Do not contaminate other pesticides, fertilizer, seeds, feed  
or feed. Return spillage to original container prior to  
disposal.

**Product Disposal:** Securely wrap original container in several  
layers of newspaper and discard in trash.

**Container Disposal:** Do not reuse bag. Discard bag in trash.

## REAR PANEL

**About clippings:** Grass clippings and yard wastes are approximately 20% of the volume in our nation's landfills. This product will help you do your part by significantly reducing the amount of clippings generated. This happens because the high amount of controlled-release nitrogen in the product prevents surges of growth while providing a steady release of nutrient. **Other Tips For Reducing Clippings:** Leave clippings on your lawn, and increase mowing height and frequency. This will result in smaller clippings that decompose more readily and add nutrients back into your lawn.

IBDU slow release nitrogen is exclusively distributed in the U.S.A. by Vigoro Industries - a leader in the fertilizer industry for over 100 years.

**Why Vigoro fertilizers outperform other fertilizers:** This product gives you the type of lawn that will turn your neighbors green with envy. That's because it contains IBDU slow release nitrogen. It feeds your lawn every time it gets water.

IBDU slow release nitrogen produces a thick, green lawn with less frequent fertilizing.

IBDU slow release nitrogen doesn't wash away with heavy rain or over-watering like the nitrogen in other fertilizers.

The controlled-release feeding of IBDU slow release nitrogen won't overfeed or burn your lawn when used as directed.

This product gives you steady consistent growth for easier maintenance.

**What is IBDU® Slow-Release Nitrogen?** IBDU slow-release nitrogen has been proven since 1964 by golf course, landscape and agricultural professionals worldwide as one of the most consistent slow-release nitrogen sources. IBDU slow-release nitrogen is only slightly water soluble (about 1/1000 that of urea) and depends only on hydrolysis (water) for its predictable release to the soil. It is not dependent on temperature or bacterial activity.

**The Benefits of A Well-Maintained Lawn:** Besides increasing property values, a well-maintained lawn provides the following benefits to your home and environment:

- A 50' x 50' lawn produces enough oxygen for a family of four every day
- Controls erosion
- Traps dust, smoke and other pollutants
- Reduces noise and glare
- Modifies temperature
- Improves soil condition
- Purifies water
