

Dec 15 1972

FEDERAL INSECTICIDE
CORPORATION, MILWAUKEE, WIS. 53203
EPA REG. NO. 561-3

DO NOT APPLY TO THE EDIBLE PRODUCTS AREAS OF FOOD PROCESSING PLANTS

DIRECTIONS

CLOTHES MOTHS

Apply to the surface of clothing, drapery, and other fabrics. For best results, use in a well-ventilated area. Repeat application every 7-10 days until infestation is eliminated. A few days after application, the insects will die and fall off the fabric. Wash fabric in hot water and dry in a clothes dryer to remove dead insects.

CARPET BEETLES

Apply to the surface of carpet, rug, and other fabric-covered surfaces. For best results, use in a well-ventilated area. Repeat application every 7-10 days until infestation is eliminated. A few days after application, the insects will die and fall off the surface. Vacuum thoroughly to remove dead insects.

FLEAS

Apply to the surface of carpet, rug, and other fabric-covered surfaces. For best results, use in a well-ventilated area. Repeat application every 7-10 days until infestation is eliminated. A few days after application, the fleas will die and fall off the surface. Vacuum thoroughly to remove dead fleas.

CAUTION — Avoid inhalation or skin contact. In case of spillage on skin, wash with soap and water. Avoid contaminating feed, foodstuffs, and food utensils. Harmful if swallowed. Keep out of reach of children and care should be taken to avoid deposits which could be frequently contacted by children. Do not spray into or near fire or open flame. Do not smoke while spraying. DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

PEST-X No. 5 will not stain most fabrics, but do not spray on silks, satins, or rayons. Do not spray on wallpaper, asphalt tile, some linoleums, and certain plastic materials without first testing by applying to small inconspicuous areas. Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.

**PEST-X
No. 5 SPRAY**

**A CONTACT AND RESIDUE
TYPE INSECT KILLER**

**Kills and Controls Carpet Beetles, Fleas,
Moths, Silverfish, and exposed stages of

EPA Reg. No. 561-3

DIRECTIONS

SILVERFISH

Apply to the surface of the fish tank. For best results, use in a well-ventilated area. Repeat application every 7-10 days until infestation is eliminated. A few days after application, the silverfish will die and fall off the surface. Remove dead silverfish from the tank.

CEREAL PESTS

Apply to the surface of cereal, grain, and other foodstuffs. For best results, use in a well-ventilated area. Repeat application every 7-10 days until infestation is eliminated. A few days after application, the insects will die and fall off the surface. Vacuum thoroughly to remove dead insects.

ACTIVE INGREDIENTS

100%
Petroleum distillates; *Malathion; N-octyl bicycloheptene dicarboximide; *Technical piperonyl butoxide; Pyrethrins.
