

[561-15]

DIRECTIONS

Close all doors, windows, transoms, and ventilators. Turn off all fans.

ELECTRIC SPRAYERS — for space treatment with Microsol, Challenger, Fogmaster or similar type units, use at rate of 2 to 3 ounces per 1,000 cubic feet of space. Leave room closed for 10 minutes.

HAND SPRAYERS — Spray toward ceiling, filling room with fine floating mist or fog. Amount of liquid used will be governed by size of room. Keep room closed for 10 to 15 minutes. Sweep up and destroy all fallen insects.

CAUTION!

Harmful if swallowed. Keep out of reach of children. Cover or remove exposed food before spraying. Do not spray or store near open flame. In food processing plants, foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product as a space spray in these areas, apply only when plant is not in operation.
