2-butanone 9.75%
Inert Ingredient 90.25%
Total 100.00%

Caution: Keep out of reach of children.
See back panel for additional precautionary statement.

BAG-A-BUG

TIME-RELEASE INSECTICIDE STICKS

Effective Control
Kills Aphids, Leafhoppers, Mealybugs,
Spider Mites, Thrips and Whiteflies.

DIRECTIONS FOR USE

General Classification: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use strictly in accordance with label caution and directions.

HOW IT WORKS

BAG-A-BUG Time-Release Insecticide Sticks contain an exclusive systemic insecticide which is released by moisture to the soil and absorbed by the roots and is transported to the leaves of the plant. No contact with messy sprays or powders is necessary. Since the insecticide is inside the unique stick design.

Insect control occurs 2-7 days after insertion depending on the size and age of plant—and the long lasting stick continues protecting for 6-8 weeks.

If insects reappear after 4 period of time, add new sticks. Removal of old sticks is not necessary, as they break down in the soil.

HOW TO USE

Use BAG-A-BUG Time-Release Insecticide Sticks for control of aphids, leafhoppers, mealybugs, spider mites, thrips and whiteflies on ornamental plants only. Do not use on vegetable crops.

Separate sticks and insert 1" from plant stem. Push into soil completely. Water plant.

Use the following number of sticks based on pot size:

Pot Diameter	Sticks To Use
1-4"	1
4-5"	2
5-6"	3
6-8"	4

Add new sticks every 6-8 weeks to provide continuous plant protection from insect damage.

A few plants react adversely and should not be treated with this product—Cabbage palm, Cineraria, Cordyline, Delta maidenhair, English primrose, False Jerusalem cherry, Fuchsia, Lantana, Nasturtium, Oxlip, Pocketbook plants, Poinsetta, Primrose, Red Pepper, Slipperwort.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

Caution: Keep out of reach of children. Wash hands with soap and water after using this product. Do not contaminate food or foodstuff. Sticks are treated with a bitter substance to make them unappealing to children. Protect your pets.
