MANUFACTURED FOR

DIRECTIONS: Hold Para-STM-1 aerosol upright 6 to 12 inches from the dog or cat. Depress valve and direct spray over the animal until entire coat is damp. For average-sized dogs, an application for thirty seconds is usually sufficient; for cats, ten seconds. In heavy-coated animals, spray against the lay of the hair. To kill ticks, the spray must hit them directly. May be repeated at weekly intervals if required. Interior of kennel or other quarters should be thoroughly sprayed as well as bedding. Nervous dogs and cats soon become accustomed to the hissing noise and cool sensation of the spray. Do not treat kittens or puppies under 4 weeks of age.

CAUTION: Harmful if swallowed or inhaled. Avoid contamination of feed and foodstuffs. If swallowed, call a physician immediately. Avoid breathing of spray mist. Skin contact may be harmful. Avoid contact with skin. Wash hands after use.
