### DIRECTIONS FOR USE

To Kill and Repel Face Flies, House Flies, Stable Flies, Horse Flies, Gnats and Mosquitoes, spray animal thoroughly moving spray pattern rapidly over coat. Spray from the front of the animal, with the direction of the hair, at the rate of 6 to 8 seconds per animal. Pay particular attention to spray legs, shoulders and face. Treatment should be daily or as necessary, depending on fly population.

**CAUTION:** Do not contaminate milk or milk handling equipment. Do not store, pour or spill near heat or open flame. Harmful if swallowed. Keep out of reach of children.

**WARRANTY:** Seller makes no warranty of any kind, express or implied, concerning the use of this material. Buyer assumes all risk of use or handling, whether in accordance with directions or not.
