20.000 lb. 100% active ingredient  
OFFICIAL PRODUCT

5-27-68  
572-203

For Professional Use Only

A 2,4-D and Silvex (2,4,5-TC)-coated corn cob for killing Dandelion, Chickweed, Clover, Plantain, Buckhorn and other broad leaf weeds. Manufactured specifically for use in cyclone type spreaders.

Broadleaf weeds in lawns are best controlled when they are actively growing in Spring or Fall.

DIRTY USE ONLY

Spread evenly at the rate of 2 pounds per 1000 sq. ft. Apply on a calm day when grass is wet with dew or after watering. For Clover, a repeat application may be required in two weeks.

SPREADER SETTINGS

Cyclone 3 1/2

Do not mow or water lawn 24 hours after application. Do not apply on new lawns less than two months old. Do not re-seed for 30 days after application.

CAUTION: Irritant to eyes and skin.

Avoid contact with skin, eyes or clothing. Avoid drift to susceptible plants or flowers. Do not store near fertilizers, insecticides or fungicides. Do not use on any area growing desirable shrubs, tree ornamentals or other cultivated plants. Do not contaminate waters used for domestic or irrigation purposes. Vapors from this product may injure susceptible plants in the immediate vicinity. This product may injure bent grass.
