Rockland Chemical, Co., Inc.
P.O. Box 809
West Caldwell, NJ 07006

Gentlemen:

Subject: Rockland Dog & Cat Granular Repellent
EPA Registration No. 572-209
Your Amended Application of October 6, 1983

Your general label revision is acceptable provided the following changes are made:

1. We prefer that your label carry a "Storage and Disposal" heading.
2. Add the following sentence at the end of your use directions:

Note: This product is not likely to break the established urination patterns of dogs unless used as a training aid.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

William H. Miller
Product Manager (16)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION: Do not contaminate food and feedstuffs. Use gloves if applying by hand. Avoid contact with skin. If on skin, wash with soap and water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

To prevent your pet, or stray animals, from soiling flower beds, areas of lawn, trees, shrubbery or evergreens: Apply these granules by hand or with a fertilizer spreader to borders of flower beds; or to ground and grass around the base of shrubs, trees and evergreens; or to patches of lawn you wish to protect. Sprinkle enough to cover the treated area lightly (about 4 pounds per 1000 sq. ft., or 1-2 cupfuls for 100 sq. ft.). Repeat applications until the undesirable animal habits are broken. Repeat applications after rains.

To protect garbage cans and rubbish containers from disturbance by dogs and cats, sprinkle the ground or floor about them liberally with granules. Repeat as necessary.

Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings then apply these granules. Do not apply these granules directly to foliage of shrubs or to ornamental, soft-bodied plants. Do not apply on or near food crops.

General: The most effective control for a pet is the sharply spoken word backed up with disciplinary action. For most effective results on pets, this repellent product should be used in conjunction with training.

STORAGE: Store unused material, in original container only, in a locked storage area out of reach of children and animals.

DISPOSAL: Do not reuse empty container. Securely wrap in several layers of newspaper and discard in trash.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
