ONE PANEL LABEL

LAWN-A-MAGIC
"PERMA-KILL"

A Dursban-coated corn cob granular for control of Ants, Brown Dog Ticks, Chinch Bugs, Creakets, Cutworms, Earwigs, Hyperodes (Turfgrass) Weevils, Sod Webworms (Lawn Moths) and Sowbugs (Pillbugs) on lawns and around buildings.

DIRECTIONS FOR USE

Spread evenly at the rate of 1 pound per 1000 square feet. Water lawn, using 30 gallons per 1000 sq. ft., after application.

To control Ants, Brown Dog Ticks, Creakets, Cutworms, Earwigs, Sod Webworms and Sowbugs - Make the first application when pests appear and re-treat as needed. For best results, turf should be moist at time of treatment. To control Chinch Bugs - In the New Jersey-New York metropolitan area, make first application in June. In other areas consult your local state agricultural extension agent as to the exact timing.

NOTE: To reduce initial infestation or reinfestation of buildings by Earwigs, treat a band of ground 6 to 10 feet wide around and adjacent to the buildings where these pests are active.

To control Hyperodes Weevils - Apply as above except at twice the rate, or 2 pounds per 1000 sq. ft. Apply over suspected problem area in mid-April and again in Mid-May.

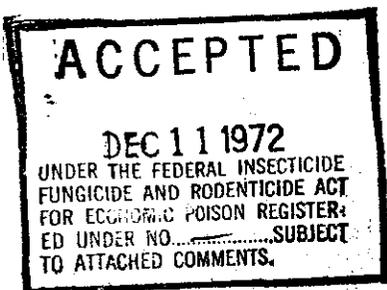

ACTIVE INGREDIENTS:

Chlorpyrifos [0,0-diethyl O-(3,5,6-trichloro-2-pyridyl)	
phosphorothioate].....	2.32%
Aromatic petroleum derivative solvent.....	1.26%
INERT INGREDIENTS:.....	99.29%

CAUTION: KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed. Do not take internally. Avoid eye contact. Flush contaminated eyes with plenty of water and get medical attention if irritation persists. Wash thoroughly after handling. Wash contaminated clothing before re-use. Keep children and pets off treated areas until this material is washed into the soil and grass is dry. Keep away from food, feedstuffs and domestic water supplies.
