# CHINCH BUG KILLER

## For Professional Turf Maintenance Operators Only

A Dursban\*-coated corn cob granular for control of Ants, Brown Dog Ticks, Chinch Bugs, Crickets, Cutworms, Earwigs, Hyperodes (Turfgrass) Weevils, Sod Webworms (Lawn Moths) and Sowbugs (Pillbugs) on lawns and around buildings. Manufactured specifically for use in cyclone type spreaders.

### DIRECTIONS FOR USE

Spread evenly at the rate of 1 pound per 1000 square feet. After application, water lawn using 30 gallons per 1000 square feet.

To Control ANTS, BROWN DOG TICKS, CRICKETS, CUTWORMS, EARWIGS, SOD WEBWORMS and SOWBUGS — Make first application when pests appear and re-treat as needed. For best results, turf should be moist at time of treatment. To control CHINCH BUGS — Consult your local state agricultural extension agent as to the exact timing.

NOTE: To reduce initial infestation or reinfestation of buildings by Earwigs, treat a band of ground 6 to 10 feet wide around and adjacent to the buildings where these pests are active.

To control HYPERODES WEEVILS — Apply as above except at twice the rate, or 2 pounds per 1000 sq. ft. Apply over suspected problem area in mid-April and again in mid-May.

CYCLONE SPREADER SETTING: # 3 — This spreader setting is meant as a guide. It is in no sense a guarantee of exact application, inasmuch as age, wear of spreader, speed of operation and roughness of terrain can cause variations in rates applied.

### CAUTION: KEEP OUT OF REACH OF CHILDREN AND ANIMALS

May be harmful if swallowed. Do not take internally. Avoid contact with skin, eyes or clothing. Flush contaminated eyes with plenty of water and get medical attention if irritation persists. Wash thoroughly after handling. Wash contaminated clothing before re-use. Avoid breathing of dust. Keep children and pets off treated areas until this material is washed into the soil and grass is dry. Keep away from food, feedstuffs and domestic water supplies.

NOTE TO PHYSICIAN: Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

This product is toxic to fish, birds and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of any body of water. Do not contaminate water by cleaning or equipment or disposal of wastes. Apply this product only as specified on this label.

Dispose of empty container and wastes by burning or burying in non-croplands away from domestic water supplies.

### ACTIVE INGREDIENTS:

Chlorpyrifos [O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate]	2.32%
Aromatic petroleum derivat solvent	1.26%
INERT INGREDIENTS:	96.42%

100.00%
