

RC

WASP

Kills

- HORNETS
- YELLOW JACKETS
- WASPS • BEES
- SPIDERS

Net Wt. 11 oz.

CAUTION: FLAMMABLE

Most bees and wasps are beneficial, however, when their nests are built too close to windows, door-ways, or children's play areas, they are dangerous and should be destroyed.

DIRECTIONS FOR USE

FOR CONTROL OF WASPS AND HORNETS: Apply after dark when all of the insects have returned to the nest. Aim valve opening at nest and depress button, soaking the nest with the spray. Repeat as necessary. Avoid wetting vegetation with this spray, as it will be damaged. Do not use as a space spray.

OTHER USES — OUTDOORS ONLY: For control of Clover Mites, Crickets, Earwigs, Flees, Millipedes, Sowbugs and Brown Dog Ticks. Spray infested areas thoroughly including outside surfaces of screen frames, doors, window frames, foundations, patios or other places where insects may enter or harbour.

FOR ANTS, spray hills and runways. Repeat as necessary. Do not spray vegetation. Do not use as a space spray.

FOR SPIDERS—OUTDOORS ONLY — Spray directly on spiders and treat webs and tracking areas around porches, under eaves, along foundations, similar outdoor areas. Repeat as necessary. Spray may cause injury to flowers and ornamentals. Before using on easily stained surfaces, test a small spot before giving full treatment.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

FIRST AID: If stung by a wasp, apply an icepack to the area of the sting, then apply a paste made with bicarbonate of soda and

water. If stung many times or if the reaction is severe call a physician.

CAUTION:

KEEP OUT OF REACH OF CHILDREN.

May be harmful if swallowed, inhaled, or absorbed through the skin. Avoid breathing of spray mist. Contact with skin, eyes, or clothing should also be avoided. Wash thoroughly with soap and warm water after handling. Avoid contamination of food, utensils and food preparation areas. Avoid contamination of fish ponds. Remove pets from area before spraying. If poisoning occurs, get prompt medical aid.

To physician — Atropine sulfate is antidotal.

FLAMMABLE. Do not spray into or near open flame. Do not smoke while using.

CONTENTS UNDER PRESSURE. Keep container away from stoves, radiators or other hot surfaces. Temperatures exceeding 120°F may cause the container to burst. Do not puncture or incinerate.

Avoid excessive wetting of plastic, rubber and asphalt surfaces of patios.

ACTIVE INGREDIENTS:	By Weight
Pyrethrins	10%
Piperonyl Butoxide technical*	20%
†N-Octyl bicycloheptene dicarboximide	33%
o-isopropoxyphenyl methylcarbamate**	50%
Insoparaffinic Hydrocarbons	83.87%
INERT INGREDIENTS:	15.00%
TOTAL	100.00%

*Consists of 16% (butylcarbityl) (6-propyl-piperonyl) ether and .04% other related compounds.

**Baygon U. S. Pat. No. 3,111,539.

†MGK 264 Insecticide Synergist

E.P.A. Reg. No. 572-245
