*May 10, 1973*

UNDER THE FEDERAL INSECTICIDE  
FUNGICIDE AND RODENTICIDE ACT  
FOR ECONOMIC POISON REGISTERED  
ED UNDER NO. 572-273

**CONTAINS TRIMEC'S HERBICIDE**  
Contains: 2,4-D, MCPP and Dicamba

**ACTIVE INGREDIENTS:**  
\*Dimethylamine salt of 2-(2-methyl-4-chlorophenoxy) propionic acid 3.66%  
\*\*Dimethylamine salt of 2,4-dichlorophenoxyacetic acid 8.07%  
\*\*\*Dimethylamine salt of Dicamba (3,6-dichloro-o-anisic acid) 0.84%  
Dimethylamine salts of related compounds 0.11%  
**INERT INGREDIENTS:** 87.32%  
100.00%  
\*2-(2-methyl-4-chlorophenoxy) propionic acid equivalent 0.26 pounds per gallon 3.02%  
\*\*2,4-dichlorophenoxyacetic acid equivalent 0.576 pounds per gallon 6.70%  
\*\*\*3,6-dichloro-o-anisic acid equivalent 0.06 pounds per gallon 0.69%  
\*Trimec is a registered trademark of P.B.I.—Gordon Corporation U.S. Patent No. 3,284,185

**ROCKLAND THREE-WAY LAWN WEED KILLER** may be used on Blue Grass Bermuda Grass or Zoysia lawns, vacant lots, playgrounds and similar areas where hard-to-kill weeds are present. This product is especially effective on the control of hard-to-kill weeds. A partial list of the weeds controlled follows:

- |                 |               |                  |
|-----------------|---------------|------------------|
| Beardgrass      | Knotweed      | Purslane         |
| Black Medick    | Lambquarters  | Ragweed          |
| Chickweed       | Lesquerella   | Sheep Sorrel     |
| Clover          | Mallow        | Shepherd's Purse |
| Crown-of-thorns | Morning Glory | Spreading Dock   |
| Crabgrass       | Orach         | Spotted Spurge   |
| Field Bindweed  | Poppygrass    | Wild Carrot      |
| Flaxweed        | Pigweed       | Wild Lettuce     |
| Ground Ivy      | Pigweed       | Wild Oat         |
| Ground Nut      | Plantain      | Yarrow           |
| Hamamelis       | Plantain      | and many others  |

Do not allow spray to get on vegetables or ornamental plants since injury may result. Since injury can be expected when used on Centaurea or St. Augustine grass lawns. Spot Spray™ weeds only. Clover present will be damaged if sprayed. Report if necessary for hard-to-kill weeds.

**DIRECTIONS FOR USE**

**WHEN TO USE:** Spray at any time during the growing season when weeds are actively growing. Treat Chickweed, Hamlet, Wild Oat and Garlic in the Fall or in the Spring, as needed. On new lawns, wait until the turf has reached a height of 2 inches before making an overall spray treatment. Spot Spray™ weed treatment, however, may be made at any time with a small pressure sprayer, spraying only the weeds at ground level. Wait 3 weeks before putting new grass seed or sods down in the bare spots. For best results, spray is applied during drought or just before rain. For best results, spray before treating. Do not water lawn within 24 hours after treatment.

**HOW MUCH TO USE — ENTIRE LAWN**

**HOSE-END SPRAYER:** Use a hose-end sprayer designed for lawns. Put recommended amount of chemical (Column 1) in bottle and add water to indicated level (Column 2), and spray on area indicated. For example — to spray 2,500 sq. feet, measure 10 oz. (20 tsp.) in jar and add water to the 10 gallon level and mix. Turn on hose and spray as evenly as possible over 2,500 sq. feet.

	Col. 1	Col. 2	Col. 3
	Am't. Three-Way Lawn Weed Killer to use (Oz.)	Fill Bottle To (Gallon)	Area to Treat (Sq. Feet)
10	5	5	1250
20	10	10	2500
30	15	15	3750
40	20	20 (full)	5000

**PRESSURE SPRAYERS:** Measure indicated amount of chemical into tank and dilute with water according to the following chart. Use a spray pattern which gives small spray droplets without any fine mist and cover the area indicated.

	Am't. Three-Way Lawn Weed Killer to use (Oz.)	Am't. of water in sprayer (Gallon)	Area to be Sprayed (Sq. Feet)
2	1	1	250
4	2	2	500
6	3	3	750

**NOTE:** Whether using a hose-end sprayer or pressure sprayer, avoid sprays which are too fine because they can drift and damage ornamental or garden plants.

**HOW MUCH TO USE: SPOT SPRAY** — To spray small areas or individual weeds, do not use hose end sprayers. Mix 1 or 2 (tsp.) in 1/2 gal. water in pressure sprayer and spray as required being certain to "wet" each weed. Be sure to use **ROCKLAND SPREADER STICKER** according to the directions on that container so that each weed is thoroughly wet.

**CAUTION:** Avoid drift of spray mist onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants. Do not contaminate domestic or irrigation water. Do not pour spray solution near these plants. Do not store in contact with fertilizers, seeds, insecticides or fungicides. Do not spray on carpetgrass, dandelion nor lawn or turf where desirable bentgrass or clovers are present. When container is empty, wash thoroughly and destroy. Never re-use. Use only lawn sprayers for this use. Coarse sprays are less likely to drift. Do not apply to areas infested by roots of desirable trees and shrubs. This product may be injurious to St. Augustine grass.

**CAUTION:** Harmful if swallowed. Avoid skin, eye and clothing contact in case of contact. Flush with water. Avoid contamination of food or feedstuffs.

**WARRANTY:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
