

Ms. Judith K. Lemm  
Rockland Chemical Company, Inc.  
P.O. Box 809  
West Caldwell, NJ 07006

JUL 6 1988

Dear Ms. Lemm:

Subject: Supplemental Hose End Sprayer Directions  
Rockland Three-Way Lawn Weed Killer  
EPA Registration No. 572-273  
Your Submission Dated June 20, 1988

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.
  - a. Add "Do not apply this product through any type of irrigation system." Refer to your submission of February 1, 1988 (This is not a requirement if this product is intended solely for homeowner use).
  - b. Delete "If irritation develops, get medical attention." You have adequately covered this issue under the STATEMENT OF PRACTICAL TREATMENT.
  - c. Under ENVIRONMENTAL HAZARDS, change "Do not contaminate water by cleaning of equipment or disposal of wastes" to read "Do not contaminate water when disposing of equipment washwaters."
  - d. Before "WE ALL MAKE MISTAKES," remind or refer the user to the Use Precautions section. Although we do not object to this text, the user should exercise care not to contact desirable plants.

# Three-Way Lawn Weed Killer

ACCEPTED  
with COMMENTS  
by EPA

JUL 6 1988

Under the  
Federal Insecticide,  
Fungicide, and  
Rodenticide Act  
EPA Reg. No.  
592 273

- Kills Dandelion, Knotweed, Henbit, Plantains, Spurge, Poison Ivy, and most other broadleaf weeds.
- One quart covers 8000 sq. ft.

CONTAINS TRIMEC® HERBICIDE. Contains 2,4-D-MEP and Dicamba Active Ingredients:

* Dimethylamine Salt of 2-(2-methyl-4-chlorophenoxy) propionic acid	3.66%
** Dimethylamine Salt of 2,4-Dichlorophenoxyacetic acid	7.59%
*** Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid)	0.84%
Inert Ingredients:	87.91%
	100.00%

THIS PRODUCT CONTAINS:

- \* 0.26 lb 2-(2-methyl-4-chlorophenoxy) propionic acid per gallon or 3.02%
- \*\* 0.543 lb 2,4-Dichlorophenoxyacetic acid per gallon or 6.30%
- \*\*\* 0.053 lb 3,6-dichloro-o-anisic acid per gallon or 0.69%
- \*\* Isomer Specific by AOAC Method No. 6100.15

Trimec® is a registered trademark of PBI-Gordon Corporation  
U.S. Patent No. 3,284,186

## KEEP OUT OF REACH OF CHILDREN CAUTION

See Back Panel for Additional Precautionary Statements.

NET CONTENTS One Gallon

IF SWALLOWED: Drink one or two glasses of water. Induce vomiting by touching back of throat with finger. Call a physician at once. Do not induce vomiting or give anything by mouth to an unconscious person.  
IF IN EYES: Flush with plenty of water and call a physician immediately  
IF INHALED: Remove victim to fresh air.  
IF ON SKIN: Wash promptly with soap and water. Rinse thoroughly. Remove contaminated clothing and shoes. Launder before wearing.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

**STORAGE & DISPOSAL:** Do not store near food or feedstuffs. Do not store near fertilizers, seeds, insecticides or fungicides. DO NOT REUSE EMPTY CONTAINER. WRAP AND PUT IN TRASH COLLECTION

**Other Use Precautions:** Do not allow spray to drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solutions near these plants. Whether using a hose-end sprayer or pressure-sprayer, do not use sprays that are fine because they can drift and cause damage to non-target plants. Coarse droplet sprays are less likely to drift. Use only lawn-type sprayers. Do not spray on carpetgrass, dichondra, nor on lawns or turf where desirable clovers are present. Do not spray roots of trees and ornamentals. Do not exceed specified dosages for any area, be particularly careful within dripline of tree and other ornamental species. This product may be injurious to St. Augustine and Centipede grasses. Since injury can be expected on these lawns, "spot-spray" weeds only with a pressure sprayer.

**WHEN TO USE:** Spray at any time during the growing season when weeds are actively growing. Treat Chickweed, Henbit, Wild Onion and Garlic in the Fall or in the Spring, as needed. On new lawns, wait until the turf has reached a height of 2 inches before making an overall spray treatment. "Spot-spray" weed treatment, however, may be made at any time with a small pressure sprayer, spraying only the weeds at ground level. Wait 3 weeks before putting new grass seed or stolons down in the bare spots. Poor weed control may result if spray is applied during drought or just before rain. For best results mow before treating. Do not water lawn within 24 hours after treatment. Repeat, if necessary, for hard-to-kill weeds.

**SPOT SPRAY** — To spray small areas or individual weeds, do not use nose-end sprayer. Mix 1 oz. (2 Tbsp.) in 1/2 gallon water in pressure sprayer and spray as required being certain to "wet" each weed. Be sure to use ROCKLAND SPREADER STICKER according to the directions on that container so that each weed is thoroughly wet.

**WARRANTY:** Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

EPA Reg. No. 572-273

Manufactured by

EPA Est. No. 572-N-1

**ROCKLAND CHEMICAL CO., INC., West Caldwell, NJ 07006 USA**

## HOW MUCH TO USE — ENTIRE LAWN

**HOSE-END SPRAYER.** Use a hose-end sprayer designed for lawns. Put recommended amount of chemical in bottle and add water to indicated level (Column 1) and spray on area indicated. For example - to spray 2,500 sq. feet, measure 10 ozs. (20 Tbsp.) of chemical and add water to the 10 gallons level and mix. Turn on hose and spray as evenly as possible over 2,500 sq. feet.

Col. 1		Col. 2	Col. 3
Amt. Three-Way Lawn Weed Killer to use		F-I Bottle To	Area To Treat
(Tbsp.)	(Fl. Oz.)	(Gallons)	(Sq. Feet)
10	5	5	1250
20	10	10	2500
30	15	15	3750
40	20	20 (Full)	5000

**PRESSURE SPRAYERS.** Measure indicated amount of chemical into tank and dilute with water according to the following chart. Use a spray pattern which gives small spray droplets without any fine mist and cover the area indicated.

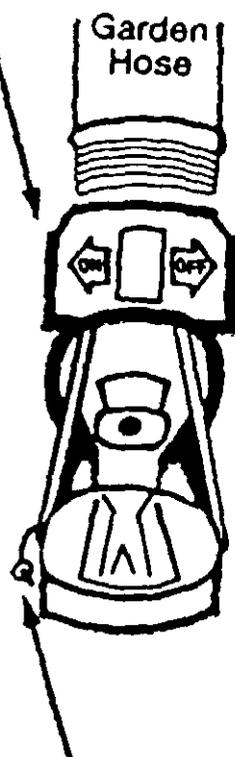

Amt. Three-Way Lawn Weed Killer to use		Amt. of water in sprayer	Area to be Sprayed
(Tbsp.)	(Fl. Oz.)	(Gallons)	(Sq. Feet)
2	1	1	250
4	2	2	500
6	3	3	750

May be used on Blue Grass, Bermuda Grass or Zoysia lawns, vacant lots, playgrounds and similar areas where hard-to-kill weeds are present. This product is especially effective in the control of hard-to-kill weeds. A partial list of the weeds controlled follows:

Bedstraw	Heal-All	Pigweed	Spotted Spurge
Jack Medic	Henbit	Plantains	Wild Carrot
Buckhorn	Knotweed	Poison Ivy	Wild Lettuce
Chicory	Lambsquarter	Poison Oak	Wild Onion
Chickweed	Lespedeza	Purslane	Yarrow
Clover	Mallow	Ragweed	and
Dandelion	Morning Glory	Sheep Sorrel	many others
Dock	Oxalis	Shepherd's Purse	
Ground Ivy	Pennergrass	Speedwell	

## Directions for Use

1. Attach nozzle to hose.
2. Make sure nozzle is OFF by rotating shut-off collar to off position.
3. Remove cap from bottle. Do not remove green disc from bottle mouth.
4. Attach bottle to nozzle firmly. This seats disc to nozzle.
5. Turn water fully on at faucet.
6. Swing nozzle and hose in line with bottle handle for easier spraying.
7. Rotate shut-off collar to ON position and commence spraying.

**WE ALL MAKE MISTAKES.** If you happen to spray your favorite flower, bush or new automobile, simply pull the "water only" plug and rinse off the object you mistakenly hit. Replace plug and continue spraying.
