ROCKLAND

Three-Way Lawn Weed Killer

- Kills Dandelion, Knotweed, Henbit, Plantains, Spurge, Poison Ivy, and most other broadleaf weeds.
- One gallon covers 32,000 Sq. Ft.

Contains TRIMEC® Herbicide. Contains 2,4-D, MCPP, and Dicamba

ACTIVE INGREDIENTS:

*Dimethylamine Salt of 2-(2-methyl-4-chlorophenoxy) propionic acid.....	3.66%
**Dimethylamine Salt of 2,4-Dichlorophenoxyacetic acid.....	7.59%
***Dimethylamine Salt of Dicamba (3,6-dichloro-o-anisic acid).....	0.84%
INERT INGREDIENTS.....	87.91%
	100.00%

THIS PRODUCT CONTAINS:

*0.26 lb. 2-(2-methyl-4-chlorophenoxy) propionic acid equivalent per gallon or 3.02%

**0.543 lb. 2,4-Dichlorophenoxyacetic acid equivalent per gallon or 6.30%

***0.059 lb. 3,6-dichloro-o-anisic acid equivalent per gallon or 0.69%

Isomer Specific by AOAC Methods.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: Do not get in eyes. Causes substantial but temporary eye injury. Wear face shield or goggles when mixing, loading or applying this product. Harmful if swallowed. Avoid contact with skin or clothing. Avoid breathing vapors or spray mist. This product may cause dermal sensitization reaction.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift or run-off may adversely affect non target plants. Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources.

Most cases of groundwater contamination involving phenoxy herbicides such as MCPP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling MCPP pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

REENTRY: Do not reenter or permit workers to reenter until treated sprays have dried.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Immediately flush eyes with plenty of fresh water and get medical attention immediately. **IF SWALLOWED:** Drink one or two glasses of water, induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention immediately. **IF ON SKIN:** Wash skin with plenty of soap and water. Get medical attention if irritation persists. Launder clothing and decontaminate footwear before reuse. **IF INHALED:** Remove from contaminated atmosphere.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

HANDLING PRECAUTIONS: When using this product, wear long-sleeved shirt, long pants, socks, shoes and chemical resistant gloves. After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and

thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower.

Do not allow people (other than applicator) or pets on treatment area during application
Do not enter treatment area until spray has dried.

OTHER USE PRECAUTIONS: Do not allow spray to drift onto vegetables, flowers, ornamental plants, shrubs, trees and other desirable plants since injury may result. Do not pour spray solutions near these plants. Whether using a hose-end sprayer or pressure-sprayer, do not use sprays that are fine because they can drift and cause damage to nontarget plants. Coarse droplet sprays are less likely to drift. Use only lawn-type sprayers. Do not spray on carpetgrass, dothondra, not on lawns or turf where desirable clovers are present. Do not spray roots of trees and ornamentals. Do not exceed specified dosages for any area; be particularly careful within dripline of tree and other ornamental species. This product may be injurious to St. Augustine and Centipede grasses. Since injury can be expected on these lawns, "spot-spray" weeds only with a pressure sprayer.

WHEN TO USE: Spray at any time during the growing season, when weeds are actively growing. Treat Chickweed, Henbit, Wild Onion and Garlic in the Fall or in the Spring, as needed. On new lawns, wait until the turf has reached a height of 2 inches before making an overall spray treatment. "Spot-spray" weed treatment, however may be made at any time with a small pressure sprayer, spraying only the weeds at ground level. Wait 3 weeks before putting new grass seed or stolons down in the bare spots. Poor weed control may result if spray is applied during drought or just before rain. For best results mow before treating. Do not water lawn within 24 hours after treatment. Repeat, if necessary, for hard-to-kill weeds. The maximum number of broadcast applications per treatment site is 2 per year.

SPOT SPRAY: To spray small areas or individual weeds, do not use hose-end sprayer. Mix 1 oz. (2 Tbsp.) in 1/2 gallon water in pressure sprayer and spray as required being certain to "wet" each weed. Be sure to use ROCKLAND SPREADER STICKER according to the directions on that container so that each weed is thoroughly wet.

HOW MUCH TO USE--ENTIRE LAWN

HOSE-END SPRAYER: Use a hose-end sprayer designed for lawns. Put recommended amount of chemical (column 1) in bottle and add water to indicated level (Column 2), and spray on area indicated. For example - to spray 2,500 sq. ft., measure 10 oz. (20 Tbsp.) in jar and add water to the 10 gallons level and mix. Turn on hose and spray as evenly as possible over 2,500 sq. ft.

Column 1		Column 2	Column 3
Amount Three-Way Lawn Weed Killer to Use		Fill Bottle To (Gallons)	Area to Treat (Sq. Feet)
(Tbsp.)	(Fl. Oz.)		
10	5	5	1250
20	10	10	2500

30	15	15	3750
40	20	20	5000

PRESSURE SPRAYERS: Measure indicated amount of chemical into tank and dilute with water according to the following chart. Use a spray pattern which gives small spray droplets without any fine mist and cover the area indicated

Amount Three-Way Lawn Weed Killer to Use		Amount of Water in Sprayer (Gallons)	Area to be Sprayed (Sq. Ft.)
(Tbsp.)	(Fl. Oz.)		
2	1	1	250
4	2	2	500
6	3	3	750

NOTE: Whether using a hose-end sprayer or pressure sprayer, avoid sprays which are too fine because they can drift and damage ornamental or garden plants.

May be used on Blue Grass, Bermuda Grass or Zoysia lawns, vacant lots, playgrounds and similar areas where hard-to-kill weeds are present. This product is especially effective in the control of hard-to-kill weeds. A partial list of the weeds controlled follows:

- Bedstraw, Black Medic, Buckhorn, Chicory, Chickweed, Clover, Dandelion, Dock, Ground Ivy, Heal-All, Henbit, Knotweed, Lambsquarter, Lespedeza, Mallow, Morning Glory, Oxalis, Peppergrass, Pigweed, Plantains, Poison Ivy, Poison Oak, Purslane, Ragweed, Sheep Sorrel, Shepherd's Purse, Speedwell, Spotted Spurge, Wild Carrot, Wild Lettuce, Wild Onion, Yarrow, and many others.

STORAGE AND DISPOSAL

Do not store near food or foodstuffs. Do not store near fertilizers, seed, insecticides or fungicides. Do not reuse empty container, wrap and put in trash collection.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

EPA Est. No. 572-NJ-1

Manufactured by
Rockland Corporation
 West Caldwell, NJ 07006 USA

Product A27301A

Directions for Use

1. Attach nozzle to hose.
2. Make sure nozzle is OFF by rotating shut-off collar to off position.
3. Remove cap from bottle. Do not remove green disc from bottle mouth.
4. Attach bottle to nozzle firmly. This seats disc to nozzle.
5. Turn water fully on at faucet.
6. Swing nozzle and hose in line with bottle handle for easier spraying.
7. Rotate shut-off collar to ON position and commence spraying.

WE ALL MAKE MISTAKES. If you happen to spray your favorite flower, bush or new automobile, simply pull the "water only" plug and rinse off the object you mistakenly hit. Replace plug and continue spraying.
