Net Contents ONE QUART (32 Fl. Oz.)

ROCKLAND VEGETATION KILLER
Directions for Use
Apply this product to weeds and grasses in drives, cracks of walks and patios, around buildings, under fences and other places where weeds and grass are not wanted. Apply the product only as specified on the label.

PHYSICAL HAZARD

Do not use, pour, fill or store near heat or in flame. Keep out of lake, stream, pond, river, bay or other water by cleaning of equipment and proper disposal. Apply the product only as specified on the label.

PHYSICAL HAZARD

Do not use, pour, fill or store near heat or in flame.

CAUTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

Read entire Directions for Use and Warranty before using this product.

STORAGE AND DISPOSAL

STORAGE: Store at temperatures above 32°F.

DISPOSAL: Do not use empty container. Wrap container and put in trash collection.

Spray weeds and grasses in drives, in cracks of walks and patios, around buildings, under fences and other places where weeds and grass are not wanted.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the drip-line of trees. Avoid spray drift to desirable plants.

Thoroughly wet all foliage to insure contact action. Stand as close to weeds and grass as possible. A jet stream spray is less likely to drift. Best results are obtained when applications are made during or after weed emergence while growth is succulent. One quart will cover 80 square feet or where weeds and grass are tall and dense 40 square feet. For control of hard-to-kill perennial weeds and grasses, such as johnsongrass, bindweed and wild carrot use one quart to treat 20 square feet.

Although ROCKLAND ready-to-use VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and, therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
