> Subject: Notification to Revise Storage and Disposal Statement per PRN 2007-4 Product Name: Hormo Root A EPA Reg. No: 572-348 Your Submission Dated February 2, 2011

Dear Ms. Williams:

The Biopesticides and Pollution Prevention Division is in receipt of your application for Notification under Pesticide Registration Notice (PRN) 2007-4, as referenced above. A screen of this request has been conducted for applicability under PRN 2007-4, and it has been determined that the action request falls within the scope of this document. Our records have been duly noted, and the product label submitted with this application has been stamped "Notification Accepted" and will be placed in our records as current and updated. Should you have any questions regarding this action, you may contact Gina Casciano at (703) 605-0513 or via email at casciano.gina@epa.gov.

Sincerely,

# Linda Hollis

Ms. Linda Hollis Document Processing Desk (NOTIF) BPPD (7504P) U.S. Environmental Protection Agency 1200 Pennsylvania Avenue, N.W. Washington, DC 20460

 1200 Pennsylvania Avenue, N.W.
 Washington, DC 20460
 Subject: Notification of Revision to Container Disposal Statements and Minor Text Revisions Rockland Hormo Root A, EPA Reg. No. 572-348

Dear Ms. Hollis:

Enclosed is a Notification application and a copy of labeling on which the revisions covered by this Notification have been highlighted.

We are updating the container disposal statement of the labeling of the subject registration, per PR Notice 2007-4. We are also correcting the product name designation on the labeling so it is consistent throughout the label text, correcting the grammar in one statement to make it appropriate to a singular rather than a plural noun, inserting the current registrant's (Value Garden Supply) name, address, phone number and establishment number in place of the previous registrant's, and revising the "800" number designation that can be called in the event of a medical emergency.

This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the confidential statement of formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the requirements of 40 CFR 152.46156.10, 156.140, 156.140, 156.140, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

·. ·i /

This notification is also consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Sincerely,

Vleana Willeam

### PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Causes eye irritation. Harmful if inhaled or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

	FIRST AID
If in Eyes:	• Hold eye open and rinse slowly and gently with water for $15 - 20$ minutes.
	• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
l	• Call a poison control center or doctor for treatment advice.
If Swallowed:	• Call a poison control center or doctor immediately for treatment advice.
	• Have person sip a glass of water if able to swallow.
	• Do not induce vomiting unless told to do so by the poison control center or doctor.
	• Do not give anything by mouth to an unconscious person.
If on Skin or	Take off contaminated clothing.
Clothing:	• Rinse skin immediately with plenty of water for 15 – 20 minutes.
	• Call a poison control center or doctor for treatment advice.
If inhaled:	Move person to fresh air.
	• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
	• Call a poison control center or doctor for further treatment advice.
Have the prod	luct container or label with you when calling a poison control center or
doctor, or goin	g for treatment.
For informatio	on regarding medical emergencies or pesticide incidents, call the National
Pesticide Infor	mation Center (NPIC) at 1-800-858-7378.

# PERSONAL PROTECTIVE EQUIPMENT

Applicators and other handlers must wear:

- Long sleeved shirt and long pants
- Waterproof gloves
- Shoes plus socks
- Protective eyewear

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

### USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

#### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

#### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to you State or Tribe, consult the agency responsible for pesticide regulation.

### AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry (REI) of 12 hours. EXCEPTION: If the product is soil injected or soil incorporated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls over long-sleeved shirt and long pants.
- Waterproof gloves.
- Shoes plus socks.
- Protective eyewear.

HORMO-ROOT "A" is recommended for the treatment of Azaleas (evergreen types), Chrysanthemums, Chinese Evergreens, Dieffenbachia, Dracaenas, Geraniums, Hydrangeas (greenhouse types), Ivy, Lantanas, Pandanus, Veitchi, Pachysandra, Peperomias, Philodendron, Poinsettias, Pothos, and a wide range of other plants and for general treatment of seeds, bulbs, roots, corms, or ornamental plants. Do not use on plants that are to be used for food or feed.

**POWDER DIPPING PROCEDURE FOR SOFT WOOD CUTTINGS:** When using Hormo-Root "A" powder, it is desirable to have bottom heat preferably between 70-75° F. Treated cuttings should not have less than a 60° F Temperature. Any rooting medium may be used but a mixture of sand and peat has been found very satisfactory for most vegetative reproduction.

Smooth stemmed cuttings should be slightly moistened before dipping in the powder to a depth that will cover the stem lightly to a point slightly higher than the cutting will be set in the sand or other medium. To remove excess powder, tap on the edge of the container.

Softwood cuttings, also known as slips, are made form immature non-woody growth and include most house plants and perennials. Cuttings should be from stems that are brittle. Use tip cuttings 2" to 8" long, depending on size of plant. With a sharp knife cut just below a node or leaf.

Timing would be from August to December depending on when the plant makes new growth. Greenhouse cuttings may be made according to the conditions of the cuttings, regardless of the season.

Geraniums and other cuttings with rough stems should not be moistened before treatment.

It has been found by leading growers that Geraniums may be treated and potted directly into a rather sandy soil. Excellent results have been obtained by this method.

Be sure that the trench or hole in the sand or soil is sufficiently large so that the powder is not rubbed off when inserting the cuttings.

GENERAL TREATMENT OF SEEDS, BULBS, CORMS, AND ROOTS OF "ORNAMENTAL PLANTS": Dust with Hormo-Root "A", agitating in a bag or other container into which the powder and seeds have been introduced, so that a light coating is deposited. Screen off any excess powder for future use.

Hormo-Root "A" powder is light and usually goes further than other preparations. One pound should treat 35-40,000 average cuttings.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in tightly closed, original container in a dry, cool, dark, locked area away from children and domestic animals.

**Pesticide Disposal and Container Handling: If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. If partly filled: Dispose of at an approved waste disposal facility.

NOTICE: Seller makes no warranty or guarantee of any kind, expressed or implied, concerning effects of use of this product, other than those specified on this label. Buyer or user accepts all responsibility for results due to misuse or improper handling of this product.

FOR SALE, STORAGE, AND USE BY PROFESSIONAL NURSERYMEN!

### USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment of disposal of equipment washwaters.

#### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Not for use on plants being grown for sale or other commercial use, or for commercial seed production, or for research purposes. For use on plants intended for aesthetic purposes of climatic modification and being grown in interior landscapes, ornamental gardens or parks, or on lawns and grounds. Do not use on plants that are to be used for food or feed.

Hormo Root Formula A is recommended for the rooting treatment of many houseplants and Azaleas (evergreen types), Chrysanthemums, Chinese Evergreens, Dieffenbachia, Dracaenas, Geraniums, Hydrangeas, Ivy, Lantanas, Pandanus, Veitchi, Pachysandra, Peperomias, Philodendron, Poinsettias, Pothos, and a wide range of other plants. This product may also be used for general treatment of bulbs, roots, and corms, or ornamental plants.

#### **POWDER DIPPING PROCEDURE:**

Select cuttings from a vigorous healthy plant. Tips should be 2" to 8" long. Cuttings should be from stems that are brittle.

Cut just below a node or leaf with a sharp knife.

Remove any leaves or flowers at the base of the cutting.

Before Dipping in Powder, smooth stemmed cuttings should be slightly moistened. Cuttings with rough stems should not be moistened before treatment.

**Dip in Powder** to a depth that will cover the stem lightly to a point slightly higher than the cutting will be set in the rooting medium. To remove excess powder, tap on the edge of the container, letting excess fall back into the unused rooting powder.

**Plant:** Any rooting medium may be used, but a mixture of sand and peat potting soil has been found very satisfactory for most vegetative reproduction. Be sure that the trench or hole in the soil is large enough so that the powder is not rubbed off when inserting the cuttings. Firm soil around cutting to avoid air pockets.

Keep rooting medium moderately moist until roots are established. Treated cuttings should not have less than a 60° F Temperature.

GENERAL TREATMENT OF SEEDS, BULBS, CORMS AND ROOTS OF ORNAMENTAL PLANTS: Place Hormo Root Formula A and bulbs, corms or roots into a sealed bag or container. Shake well to deposit a light coating. Screen off excess powder for future use.

Two ounces of Hormo Root Formula A should treat approximately 4,500 average cuttings.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in tightly closed, original container in a dry, cool, dark, locked area away from children and domestic animals.

**Pesticide Disposal and Container Handling: If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If **partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Seller makes no warranty or guarantee of any kind, expressed or implied, concerning effects of use of this product, other than those specified on this label. Buyer accepts all responsibility for results due to misuse or improper handling of this product.
