Net Weight 14 oz.

ACCEPTED

MAY 29 2001

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 572-351

**PRECAUTIONARY STATEMENTS CAUTION:**

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Do not use in commercial food/feed handling establishments, restaurants or other sites where food/feed is commercially prepared or processed. Not for use in USDA meat and poultry plants.

FIRST AID	
IF IN EYES:	-Hold eye open and rinse slowly and gently with water for 15-20 minutes. -Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. -Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact Chemtrec at 1-800-424-9300 for emergency medical treatment information	

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic invertebrates Do not apply directly to water.

**PHYSICAL OR CHEMICAL HAZARDS:** Flammable, contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Rockland Wasp & Yellow Jacket Bomb kills Wasps and Hornets on contact, kills the entire nest. It kills with residual action as wasps & hornets return to nest. It can be used both indoors (attics and other places where nests are built) and outdoors on wasp & hornet nests. This product has electrically non-conducting dielectric breakdown voltage of 47,300 volts.

**Read Entire Label.**

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. (Remove protective cap). Hold can upright and point spray opening toward nest with wind at your back. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

To kill wasps, hornets and yellow jackets under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1-2 seconds or until surfaces are moist. To prevent entrance of insects into the house, spray around points where insects enter, such as outside plumbing, faucets, etc., and cracks or crevices in foundation as well as along sills and ledges.

Do not apply to pets or contaminate feed, foodstuffs, dishes or utensils. Avoid spraying vegetation directly.
