

ROCKLAND FEED AND SEED is a very effective lawn fertilizer and weed control compound. These materials normally are applied during the same time period by combining them in this manner treatments are applied in one operation with a direct saving in time and money.

The Turpisan in this product is highly effective for the control of weeds (smooth and hairy) and certain annual weed grasses in turf areas such as golf course fairways, lawns, parks, roadsides and turf grown for grass seed or sod production. Because of its high degree of selectivity, ROCKLAND FEED AND SEED may be applied at time of seeding without causing injury to germinating seeds of many common temperate region grasses as well as established turf.

ROCKLAND FEED AND SEED is recommended for pre-emergence control of annual weed grasses, such as crabgrass (smooth and hairy), foxtail, and barnyardgrass, in newly seeded or established plantings of the following grasses only: bluegrass, fescue, redtop, smooth brome, perennial ryegrass, orchardgrass, and the following strains of bentgrass: Penncross, Seaside, Highland Astoria, Nimisila, C-1, C-7, and C-19. Do not use on other bentgrass strains nor on Bermudagrass, as injury to turf may result. Treatment will not control annual bluegrass (*Poa annua*), clover or most broadleaf weeds. This product may be applied at any stage of turf development, including new seedings.

DIRECTIONS FOR USE

Before making application lawn should be raked to remove extraneous material for uniform application. Use any spreader in good condition. Measure off area to be treated by reading over larger area than recommended. Water well before and after application. Water well again 7 days after application.

Application on NEW FALL SEEDINGS: Apply 1.000 lbs. per acre.

New Spring Seedings: Apply 1.000 lbs. per acre (1 bag over 5,000 sq. ft.) at time of or soon following seeding.

These spreader settings are meant as a guide. They are in no sense a guarantee of exact application, inasmuch as age, wear of spreader, speed of operation and roughness of terrain can cause variations in rates applied.

CAUTION: Keep out of reach of children. Avoid contact with eyes. Avoid breathing dust. Avoid contact with skin and clothing. Wash thoroughly after using. Keep children and pets off treated areas until this material is washed into the soil and grass is dry. Do not contaminate feed or foodstuffs. Do not apply to crops used for food and feed purposes. Do not store near seeds, fertilizers, and other

pesticides. Use only in turf areas. Store in tight container. Do not reuse empty container. Destroy by burying with soil or by burning. Stay away from smoke or fumes.

This product is toxic to fish. Keep out of lakes, streams, or ponds.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of loss, injury or handling of this material when purchased. For more information contact the label.
