# HAVILAND DEMOUSER NO. 2

## WATER REPELLENT ZINC PHOSPHIDE READY-TO-USE FORMULATION

Recommended for the control of Meadow Mice and White-footed Mice in Orchards, Nurseries, Berry Farms and truck gardens by means of broadcast treatment.

### DIRECTIONS

Haviland Demouser No. 2 is formulated to insure even distribution of rodenticide even on large scale applications. It may be applied using conventional ground spreading equipment.

Haviland Demouser No. 2 may also be used in bait stations in and around the barn or barnyard using suitable bait boxes, cages and other means to protect bait from dogs, cats, poultry, livestock and other beneficial farm animals. When used in bait boxes and etc., 1 teaspoonful to 1 tablespoonful of Haviland Demouser No. 2 should be placed in each bait station.

Broadcast baiting may be applied by cyclone seeder, or by hand. When applying by hand, throw tablespoon amounts into heavy cover along tree rows, rock outcrops, and fence lines. Apply at the rate of 6 to 10 pounds per acre. Do not broadcast over growing crops.

### WARNING: MAY BE FATAL IF SWALLOWED

Keep children, pets and domestic animals away from baited areas.

Wear gloves when handling. Do not breathe dust or fumes. Wash thoroughly after handling and before eating or smoking. Store away from and do not contaminate feed or foodstuffs. Store poisoned grains in locations not accessible to children, pets, poultry and domestic animals. Avoid contact with skin.

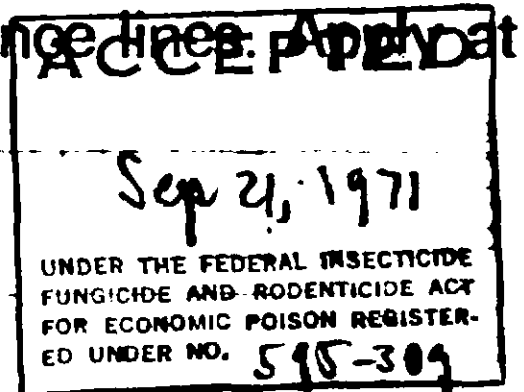

Birds and other wildlife feeding in treated areas may be killed.

Do not reuse empty container. Destroy it by burying with waste or burning. Stay away from smoke or fumes.

**ANTIDOTE:** Give a tablespoon of mustard in a glass of warm water, repeat until vomit fluid is clear. Administration of large quantities of Bicarbonate of Soda 5% solution in water may also be helpful. Call a Physician immediately.

### NON-WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
