	100.000%

*MCK Repellent 326 U. S. Pat. No. 2,757,120
**MCK Insecticide Synergist U. S. Pat. No. 2,574,512

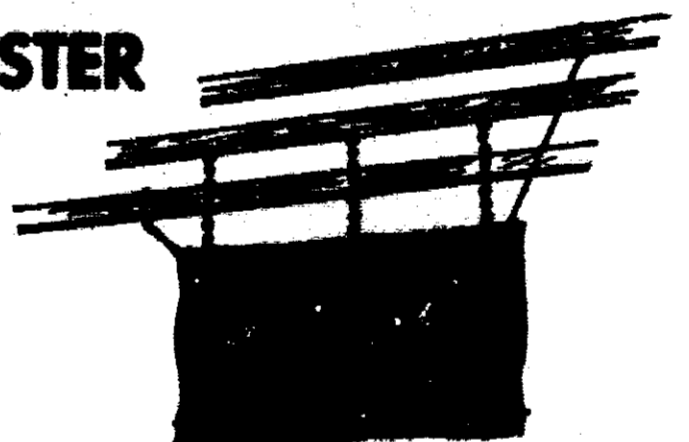

HOW TO USE PURINA CATTLE DUSTER

Purina Cattle Duster is a ready to use, non-mechanical dust applicator for beef cattle or dairy cows. Contains a blend of pyrethrins insecticide and fly repellent additives in an oil-conditioned powder.

Purina Cattle Duster is recommended for the control of the biting horn flies on cattle.

Pull rip cord on side of bag to allow insecticide dust to settle into lower portion of bag.

DIRECTIONS

HOW TO HANG:

Hang Purina Cattle Duster by means of rope or chain placed through grommets along top edge of bag. Adjust height so that bottom of bag will hang a little below the backline of the animals using it.

WHERE TO HANG:

Purina Cattle Duster should be hung in locations protected from the weather where animals will frequently dust themselves. Suggested locations are in doorway of barn, in loafing shelters, under sun shade, or in protected openings through which cattle go for water, mineral, or feed.

CAUTION: Do not hang Cattle Duster over feed, mineral, or water troughs.

QUALITY CONTROLLED BY PURINA RESEARCH

CAUTION: KEEP OUT OF REACH OF CHILDREN
