### Directions for Use of Purina Starlicide Technical

Purina Starlicide Technical is made available to State and Federal agencies only for further formulation into experimental baits, suitable for starling and blackbird control.

### WARNING:

Purina Starlicide Technical may not be used in any manner that may endanger desirable and protected bird species and domestic fowl. If there is a question of hazard or legality, consult local, state and federal game authorities before undertaking starling control with experimental products containing Purina Starlicide Technical.

Do not contaminate streams, lakes, or ponds with this material.

Handle only with protective gloves, clothing and face mask or respirator. Wash hands and equipment used for formulation thoroughly with soap and water after handling. Avoid contact with eyes, skin and clothing. If swallowed, induce vomiting and call a physician. Avoid inhalation. Fatal by skin absorption. Repeated exposure may cause methemoglobinemia.

Do not contaminate or store near feed or roosts. Do not reuse container. Destroy when empty.
