## EGG RINSE

Purina Egg Rinse is a dry concentrate for use in preparing a sanitizing rinse for washed eggs.

### HOW TO USE:

**Stock Solution.** Add 1/2 cup (8 tablespoons) of Purina Egg Rinse to 1 gallon of water and mix thoroughly.

**Proportions:** Use a water proportioner which dilutes at the rate of one ounce per gallon and use Stock Solution as the additive. At this rate the eggs will be sanitized with 100 ppm available chlorine.

Sanitizing solutions should be slightly warmer than the eggs, but not to exceed 115 F. Ideally, the solution should be maintained at 105°F to 115°F.

EPA Est No 602-MQ-1

Printed in U.S.A.

**DANGER:** Keep out of Reach of Children. May be fatal or harmful if swallowed. Strong Oxidant. May produce chemical burns. Fire may result with contact with heat, acids, organic or combustible matter. Do not get on skin or in eyes. In case of skin and eye contact, flush with plenty of water. If skin irritation persists, get medical attention. For eyes get prompt medical attention.

### FIRST AID:

**External:** Flood with water for 15 minutes.  
**Internal:** Drink large quantities of water or milk of magnesia, vegetable oil, or beaten eggs. Call a physician immediately.

**Eyes:** Wash eyes with water for 15 minutes. Get prompt medical attention.

### STORAGE AND DISPOSAL:

Handle with care. When measuring Rinse, use a china, plastic, or enamel container that is completely dry, clean, and free of foreign matter liquid or solid. Purina Egg Rinse is a strong oxidizing agent. Contact with combustibles, or organic or oxidizing materials such as vinegar, paint products, bleaches, cleaners, soap products, pine oil, rags, etc.) may cause fire. In case of fire, flood liberally with water. Never mix Purina Egg Rinse with anything except water. Keep in original container. Always replace cap on original container. Destroy when empty.

# Purina EGG RINSE

### STORAGE AND DISPOSAL:

Handle with care. When measuring Purina Egg Rinse, use a china, plastic, or enamel cup or spoon that is completely dry, clean, and free from any foreign matter liquid or solid. Purina Egg Rinse is a strong oxidizing agent. Contact with heat, acids, combustible, or organic or oxidizable materials (such as vinegar, paint products, beverages, tobacco, cleaners, soap products, pine oil, kerosene, paper, rags, etc.) may cause fire. In case of fire, douse liberally with water. Never mix Purina Egg Rinse with anything except water. Keep in a cool dry place in original container. Always replace lid. Do not re-use container. Destroy when empty.
