Purina Residual Insect Spray drives insects from their hiding places; gives rapid and continued kill. Apply with a low preasure sprayer using a coarse spray nozzle. Spray surfaces only until wet. Avoid excessive run-off. Apply to all insect hiding places. Also treat exposed surfaces where insects may crawl when they come out of hiding. Repeat treatment as necessary.

HOW TO MIX: Mix 1 pint of Residual Insect Spray in 1 gallon of water (4 02. to 1 quart).

HOW TO USE:

Roaches - Thoroughly treat the infested area. Spray baseboards and cracks; around window and door frames; under surfaces of shelves, drawers and work tables; behind and beneath cabinets, refrigerators, sinks and stoves; in and around waste containers, floor drains and other places where roaches hide.

riles, Gnats, Mosquitoes, Punkies, Sandilles, Fleas (outdoors only) - Spray infested areas thoroughly including outside surfaces of screens, doors, window frames, foundations, paties and other areas where insects may enter.

Ants - Apply to trails and places where ants enter buildings such as window and door sills. Spray hills and runways outdoors.

Spiders, Crickets, Centipedes, Millipedes, Earwigs, Scorpions, Sowbugs, Clover Miles - Thoroughly spray the interior and exterior borders of the infested buildings. For Clover Miles give special attention to window sills.

Silverfish, Firebrats - Apply to localized are -- infested by these insects.

Brown Dog Ticks - Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks, and local areas of floors. Repeat as needed. Fresh bedding should be placed in animal quarters after spraying. DO NOT SPRAY ANIMALS.

Beetle, Indian Meal Moth, Mediterranean Flour Moth, Red Flour Beetle, Sawtoothed Grain Beetle - Thoroughly treat floors and the walls of the infested area with attention to cracks, crevices, and corners. Sanitation and dust control are of primary importance. Fumigate or destroy infested products.

PETTON DIVISION TO I PETTON DIVISION TO I PETTONES, EPA IN I

aces other than private residences in which exposed FOOD HANDLING ESTABLISHMENTS food is held, processed or prepared. Do not use in serving area while food is exposed.

FOOD AREAS LIMITED TO (CRACK AND CREVICE TREATMENT ONLY) - Includes areas for receiving, serving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Mix 1 pint of Residual Insect Spray in 1 gallon of water. Apply in small amounts frectly into cracks and crevices using a pin stream of insecticide in points between different elements of construction setween equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor nousings, junction or switch boxes, where roaches, ants, centipedes, millipedes, silveriish, sowbugs, clovermites, and brown dog ticks hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TRUATMENT ARE NOT PERMITTED

NON-FOOD AREAS (spot application) - Includes garbage rooms, lavatories, cloor drains (to sewers) entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Mix 1 pint of Residual Insect Spray in 1 gallon of water and apply to baseboard areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where roaches, ants, centipedes, millipedes, silverfish, sowbugs, clovermites, and trown dog ticks hide or through which they may enter.

ANIMAL RESEARCH FACILITIES: The use of Residual Insect Spray in and around research animal quarters for insect control will not induce changes in liver microsomal enzyme activity in these animals.

RESTRICT 'ONS

Do not use, pour, spill, or store near heat or open flame. the not use as space spray. Provide adequate ventilation of areas being treated. Do not allow children to contact treated areas until surfaces are thoroughly dry. Do not store near feed or food products. Avoid contamination of feed, food, food processing equipment, and food handling surfaces. Do not apply to animals. Remove pets and cover fish tanks before spraying. Do not spray plants.

Do not apply to rugs, carpets, draperies, wallpaper, or similar materials that may be stained. Avoid excessive wetting of plastic, rubber and asphalt surfaces such as tiles and floor coverings. Do not allow small plastic sprayer to remain in product or sprayer may be damaged.

CAUTION
