FOR QUICK KILL OF MOSQUITOES

HOW TO USE PURINA YARD & PATIO FOG

Directions For Outdoor Fogging Applications:

Purina Yard and Patio Fog is a ready-to-use solution for use in foggers to control mosquitoes. Do not apply as an indoor space spray or fog.

Apply 8 ozs. (1/2 pint) for the average home yard. One gallon will treat an acre. Fog thoroughly mosquito breeding or resting areas such as bushes, heavy foliage and refuse storage areas.

For best results fog in the evening after sunset. Wind velocity should be under 4 miles per hour. The area to be fogged should always be downwind from fogging equipment.

RESTRICTIONS: Keep all persons out of the area while fogging and until the insecticide has dissipated. Keep out of any body of water. Apply only as specified on this label.

CAUTION: Harmful if swallowed, inhaled, or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Do not breathe spray mist. Wash thoroughly with soap and warm water after handling. Wash clothing with soap and hot water before re-use.

Avoid contamination of feed, food, or food-handling equipment. If food handling equipment becomes contaminated, clean thoroughly before re-use. Keep out of reach of children.

Do not use, pour or store near heat or open flame. Do not fog in presence of open fire or flame.

TO PHYSICIAN: ANTIDOTE—Administer atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance. 2-PAM is also antidotal and may be administered in conjunction with atropine.

Container Disposal: Do not re-use empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.
