**FOOD PROCESSING PLANTS**

**PURINA CHLORINATED CLEANER** is a fine crystalline product with stabilized active chlorine.

**HOW TO USE:**

Prior to the use of this product as a disinfectant or sanitizer, the utensils and equipment should be thoroughly cleaned.

**Cleaning and Disinfecting of Walls, Floors, and other Porous Surfaces.**

Brush or high pressure spray a solution of 4 ounces of PURINA CHLORINATED CLEANER per gallon of water.

**Cleaning and Disinfecting of Utensils, Metal Equipment and other Non-Porous Surfaces.**

Soak, brush or spray a solution of 2 ounces of PURINA CHLORINATED CLEANER per gallon of water. If the surface areas are to

come in contact with food, rinse with potable water before re-use.

**Sanitizing—**

Rinse or spray with a solution of 3 ounces (6 tablespoonfuls) of PURINA CHLORINATED CLEANER in 3½ gallons of water. It is not necessary to rinse with potable water before re-use when this solution is used.

**CAUTION:** Contains strong alkali. Harmful if swallowed. May cause burns or damage to the eyes. Do not get on skin or in eyes. If contact with eyes occurs, flush with plenty of water for 15 minutes and get medical attention. If contact with skin occurs, flush with water. Avoid contamination of food. Do not re-use container. Destroy when empty.

Follow local health department regulations where they are in effect.

Keep container closed - Store in cool, dry place
