Ms. Kelly Kraft
Product Control Coordinator
Purina Mills, Inc.
P. O. Box 66812
St. Louis, MO 63166-6812

Dear Ms. Kraft:

Subject: Purina Chlorinated Cleaner
EPA Registration No. 602-168
Your Resubmission Dated July 14, 1992

) This is in response to your resubmission to redesignate an active ingredient and to revise the label and update the Confidential Statement of Formula for the subject product. The following comments apply.

The labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable subject to the following comment.

- o In the Storage and Disposal section, please revise "Destroy when empty" to read "Rinse container thoroughly and discard in trash".

) A stamped copy of the label is enclosed for your records. Submit five (5) copies of the final printed labeling for inclusion in the product file.

The revised updated Confidential Statement of Formula agrees with the label and is acceptable in fulfilling our requirements in this regard.

If you have any questions about these comments, please call Marianne Clark at 703-305-7879.

Sincerely yours,

Ruth Douglas
Product Manager (32)
Antimicrobial Program Branch
Registration Division (H7505C)

PRECAUTIONARY STATEMENT
DANGER
HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye damage. Causes skin irritation. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

Cleaning - Disinfecting - Deodorizing - Destaining

Food Processing Plants

PURINA[®] Chlorinated Cleaner is a fine crystalline product with stabilized active chlorine.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Cleaning and Disinfecting of Walls, Floors, and Other Porous Surfaces

Thoroughly clean all organic matter by prescraping, presoaking or preflushing from the surface to be disinfected. Then brush or spray, with a high pressure sprayer, a solution of 4 ounces of PURINA Chlorinated Cleaner per gallon of water (provides 1000 ppm of available chlorine) to the surfaces to be disinfected. Allow the surfaces to drain and air dry.

Cleaning and Disinfecting of Utensils and Metal Equipment

Soak, brush or spray a solution of 2 ounces of PURINA Chlorinated Cleaner per gallon of water (provides 500 ppm of available chlorine). If the surface areas are to come in contact with food, rinse with potable water before use.

Sanitizing

Rinse or spray with a solution of 3 ounces (6 tablespoonsful) of PURINA Chlorinated Cleaner in 3-1/2 gallons of water (provides 200 ppm available chlorine). A minimum surface contact time of 1 minute is necessary for PURINA Chlorinated Cleaner to properly sanitize. Allow the solution to drain from the surfaces and air dry. At this level no potable water rinse is permitted.

Follow local Health Department Regulations where they are in effect.

STORAGE AND DISPOSAL

Do not reuse container. Destroy when empty.

Keep this product in a tightly closed container when not in use. Store in cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all material before discarding this container in trash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
