PURINA FOOD INDUSTRY INSECTICIDE CONCENTRATE

Purina Food Industry Insecticide Concentrate gives rapid initial kill of the accessible stages of roaches, spiders, ants, silverfish, crickets, granary and rice weevils, confused flour beetles, cadelles, saw-toothed grain beetles, spider beetles, cheese and grain mites, and dermestids.

DIRECTIONS

For Mills, Food Processing Plants, Warehouses, Restaurants, Bakeries, Food Markets, Bottling Plants, Hotels, Schools, Hospitals, and Theaters:

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Remove and destroy infested grain and feedstuffs.

HOW TO MIX: Mix 1 gallon of Food Industry Insecticide Concentrate with sufficient water to make 9 gallons of spray.

HOW TO APPLY: Apply spray directly on target insects. Use a sprayer adjusted to deliver a coarse droplet spray. Apply 1 gallon of mixed solution to 500 square feet of surface. Spray thoroughly all surfaces and areas where insects are usually found including walls, baseboards, moldings, floors, cabinets, shelves, sinks and pipes, with special attention to cracks, crevices, corners, and drains. Treat ant trails, runs, and nests.

In mills, food processing plants and warehouses thoroughly spray floors, walls and other surfaces of bins, storage and handling areas with particular attention to cracks, crevices and similar protected locations. Treat unloading, handling and processing areas and around the base of heavy machinery and equipment. Remove infested stock room milling machinery and elevator boots and spray thoroughly.

For Boxcars, Truck Beds and Ships' Holds:

HOW TO MIX: Mix 1 gallon of Food Industry Insecticide Concentrate with sufficient water to make 6 gallons of spray.

HOW TO APPLY: For protection of food and feedstuffs in transit, thoroughly spray floor and wall areas before loading.

CAUTION: Harmful if swallowed. Food and feedstuffs should be removed or covered during treatment. All food processing surfaces should be covered during treatment and thoroughly cleaned before using.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy by perforating or crushing and burying in a safe place.
