E.P.A. Est. No. 602-MO-1

DIRECTIONS FOR USE: For use on household flying and crawling insects. Mix 1/2 oz. of Mist Special-2 with 1 gallon of water. Spray in cracks and crevices, behind curtains, under beds, and in other areas where insects are likely to hide. Repeat as necessary.

TO KILL SPIDERS: Spray directly on these pests and on treated applications to the webbing and cracks and crevices which have spiders.

TO KILL ANTS: Spray doors around window frames, trails, and nests.

TO KILL GRAIN INSECTS: Adults of confused flour beetle, sawtoothed grain beetle, and shiny spider beetle. Avoid contamination of other food and feedstuffs in the areas by removing brood material. Spray directly on exposed stocks and into cracks and crevices where grain insects may be hiding in homes. Dispose of all infested products. The shelves and drawers should be cleaned and thoroughly sprayed so as to contact insects and their food with shell paper after spraying. Wash thoroughly before use. Repeat as necessary.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS
CAUTION
 Irritant to eyes, nose, and throat. Avoid contact with skin, eyes, or clothing.
FIRST AID
 In case of eye contact, flush with plenty of water for at least 15 minutes. Remove contact lenses if they are present and continue flushing.
PHYSICAL OR CHEMICAL HAZARDS
 This material is highly flammable. This formula is combustible. **DO NOT USE** near open flame or heat.
DIRECTIONS FOR USE
 For use on household flying and crawling insects. Mix 1/2 oz. of Mist Special-2 with 1 gallon of water. Spray in cracks and crevices, behind curtains, under beds, and in other areas where insects are likely to hide. Repeat as necessary.

STORAGE AND DISPOSAL
PROHIBITIONS: Do not use for storage or disposal. Open dumping is prohibited.
PESTICIDE DISPOSAL: This material may be disposed of by incineration or by other means approved by the local health department.
CONTAINER DISPOSAL: Containers must be disposed of by incineration or by other means approved by the local health department.
GENERAL: This material is highly flammable. This formula is combustible. Do not use near open flame or heat.
