**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Keep away from humans, domestic animals and pets. May be harmful or fatal if swallowed. Avoid contact with skin, eyes or clothing. In case of accidental contact, flush eyes or skin with water and wash contaminated clothing. Seek medical attention immediately if ingested or if breathing difficulty occurs or irritation persists. Wash hands thoroughly after handling Assault Mouse Pellets.

NOTE TO PHYSICIAN:

Assault Mouse Pellets are not an anticoagulant type of rodenticide. If ingested, limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Keep out of anybody of water

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

USE RESTRICTIONS

For control of house mice in and around homes, industrial and agricultural buildings, and similar man-made structures. May also be used in alleys located in urban areas, inside transport vehicles (ships, trains, aircraft), and in and around related port or terminal buildings. Do not use Assault Mouse Pellets in sewers. Bait must be placed in tamper-proof bait boxes or in locations inaccessible to children, pets, domestic animals or wildlife. Do not place baits in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food

**ASSAULT™
MOUSE PELLETS**

**Mouse Poison
For Indoor and Outdoor Rodent Control
Kills House Mice**

House mice consume a lethal dose in a single feeding with dead rodents appearing one to two days after they eat the bait. Rodents cease feeding after consuming a lethal dose in a single night's feeding. ASSAULT Mouse Pellets are effective against anticoagulant resistant mice.
