

DIX-O-TOX 10 kills flies, mosquitoes, roaches, and certain other flying and crawling insects that have developed a resistance to DDT or Chlordane. DIX-O-TOX 10 is in an oil soluble concentrate and must be diluted before using.

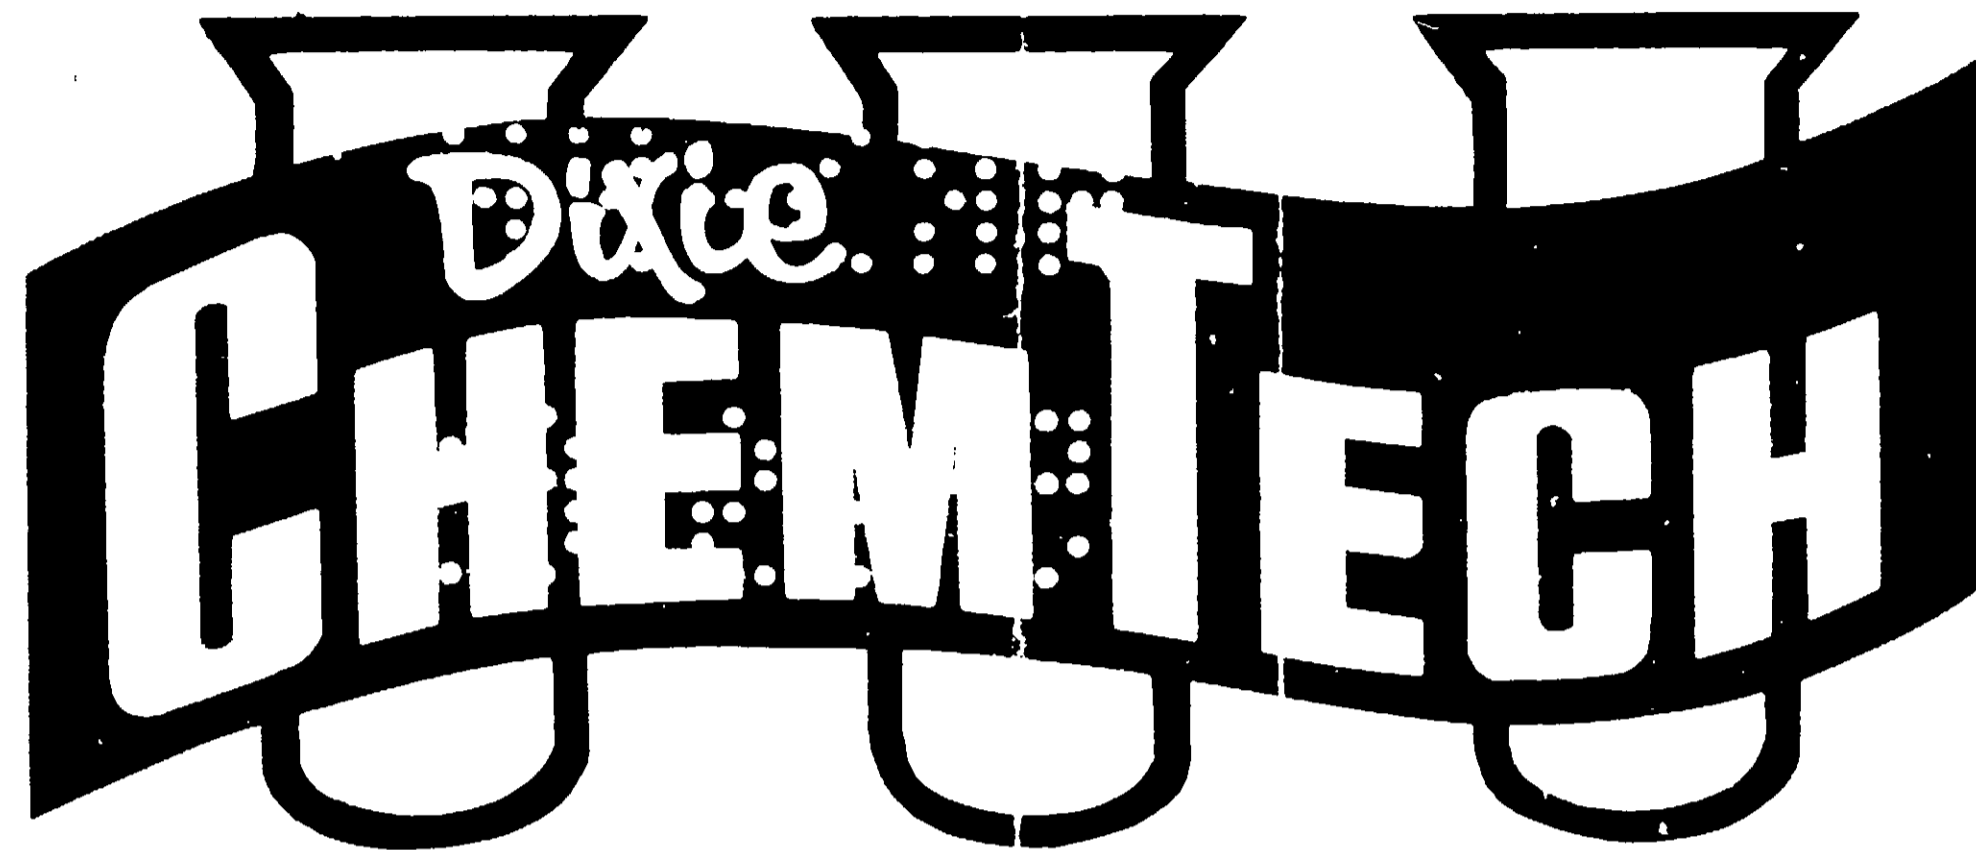

DIRECTIONS: For the reduction of housefly and mosquito population in municipalities: mix 1 part DIX-O-TOX 10 to 14 parts mineral spirits such as diesel fuel or kerosene. Treat all insect breeding areas such as garbage heaps, city dumps, sewage disposals, and alleyways. Use a coarse wet spray on all surfaces. Repeat this application when necessary.

For roach control: Mix 1 part of DIX-O-TOX 10 to 4 gallons of mineral spirits (kerosene or diesel fuel). Spray a coarse, wet spray on man-holes, garbage dumps, buildings and foundations, and garbage storage racks.

For municipal use in fogging mist: Use 1 gal. of DIX-O-TOX to 14 gallons of mineral spirits (kerosene or diesel fuel). Spray a coarse, wet spray where a residual effect is wanted. For a contact spray adjust the machine to produce a dry fog. DIX-O-TOX 10 is very effective against flies and mosquitoes in both thermal and mist machines. Fog only in outside areas where animals are not present.

CAUTION!
KEEP OUT OF REACH OF CHILDREN

MANUFACTURED BY DIXIE CHEM TECH INC.

DIX - O - TOX 10

ACTIVE INGREDIENTS	100%
Methylated Naphthalenes	82.5%
Chlordane Technical*	11.5%
Malathion*	6.0%

*Octachloro-4, 7-methanotetrahydroindane and related compounds
**O, O-Dimethyl dithiophosphate of diethyl mercaptosuccinate

CAUTION! Keep Out of the Reach of Children
See Back Panel for additional cautions.

NOTE: The mineral spirits base can harm or burn vegetation. For spraying in these areas DIX-O-TOX 11 should be used.

CAUTION! Hazardous if swallowed, inhaled or absorbed through skin. Avoid breathing mist or vapors. In case of accidental spillage on person or clothing, immediately remove clothing and flush skin or eyes with plenty of water. Do not contaminate feed or food stuffs. Keep away from heat or open flame. If accidentally swallowed, get prompt medical attention. Atropine is antidotal.

**DO NOT APPLY THIS PRODUCT
TO FOOD CROPS**

Highly toxic to fish.

Do not contaminate any body of water, by direct application, cleaning of equipment or disposal of wastes and containers.

CAUTION!
