

REGISTRATION NO. 150N REGISTERED

SILENT KILL Fly Granules are for the control of flies around food processing plants, restaurants and other areas where flies present a problem. These areas are usually where garbage cans are stored and around outdoor toilets.

SILENT KILL Fly Granules are simple to use, a sprinkler can may be used for application. Sprinkle at least 4 oz. per 1,000 square feet. By wetting the surface before scattering, the moisture dissolves the sugar base. Repeat applications as necessary.

You may also dilute 1 lb. of SILENT KILL to each gallon of water to which is added 2 cups of corn syrup or 1 lb. of sugar. The resultant mixture is then sprinkled on surfaces and places where flies feed and congregate, such as garbage dumps, garbage cans, manure piles, and outbuildings. Repeat application as necessary. Do not use in dairy barns or around places where animals and poultry feed.

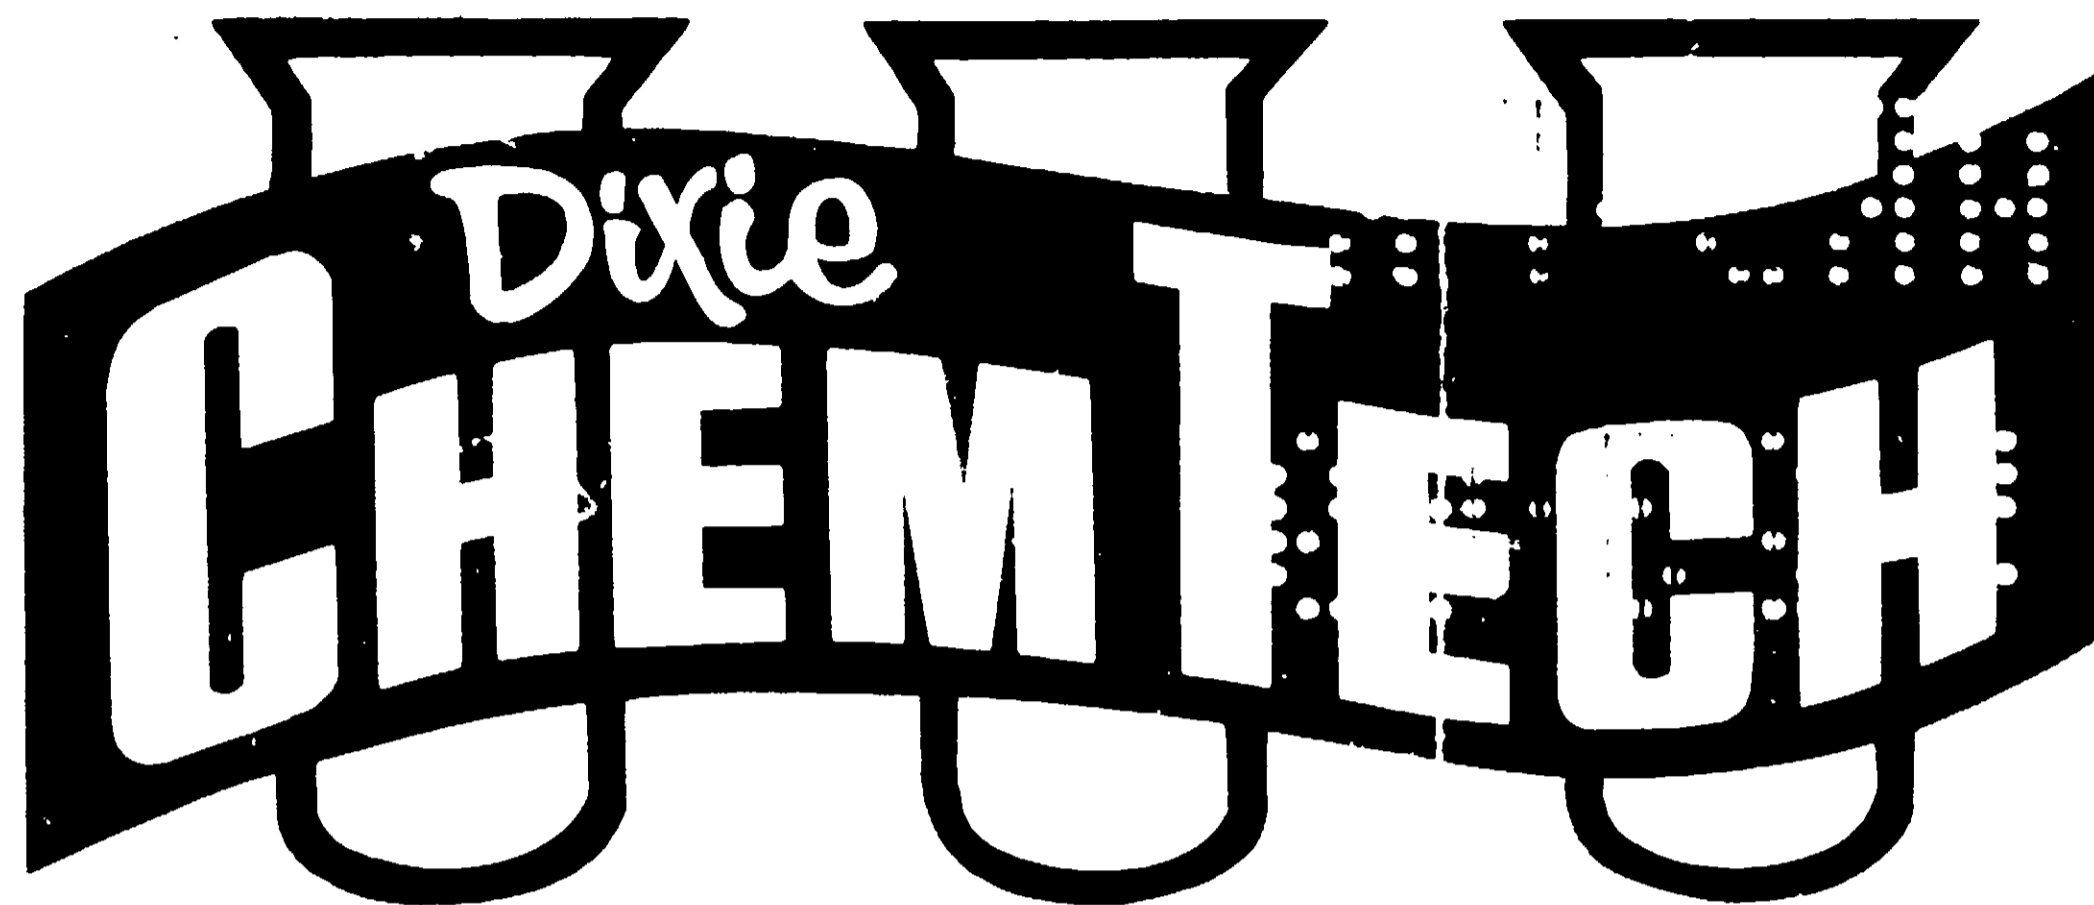

**WARNING!**

**KEEP OUT OF REACH OF CHILDREN.**

## FISH and WILDLIFE CAUTIONS!

This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Apply this product only as specified on this label. Rinse equipment and containers and dispose of wastes by burying in non-crop lands away from water supplies. Containers should be disposed of by punching holes in them and burying with wastes, or by burning (keep out of smoke). Birds feeding on treated areas may be killed.

## CAUTION!

Don't Use In Edible Product Areas of Food Processing Plants.

## WARNING!

May be fatal if swallowed, inhaled or absorbed through the skin. Do not get in eyes, or skin, or clothing. Wash thoroughly with soap and water after using. Do not scatter by hand. Use a container of some kind. Avoid contamination of food and animal feed. Do not use in human dwellings. Keep out of reach of children and domestic animals, including poultry. Do not treat portions of buildings where animals can lick. Avoid direct contact of bait or liquid mixtures with animals when applying. Do not use treated garbage as animal feed. Do not treat walls, floors, or other areas previously treated with lime, white wash or other alkalis. If poisoning occurs, get prompt medical aid. Atropine is antidotal.

Use only in areas inaccessible to children and pets.
