

## USE DIRECTIONS

### FOR CLEANING

Lightly soiled areas - surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of THREE D per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas - mop or brush soiled surface with a solution containing 2-3 ounces of THREE D per gallon of water. Rinse cleaned surface with fresh water.

### GENERAL PURPOSE DISINFECTION

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 1 ounce of THREE D per gallon of water. Surfaces that are heavily soiled should be cleaned with 1-2 ounces of THREE D per gallon of water and then disinfected. Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality.

To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, mop area with a solution containing  $\frac{3}{4}$  ounce in 1 gallon of water. This solution will destroy *Trichophyton interdigitale*, a causative agent of athlete's foot.

### HOSPITAL DISINFECTION

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 2 ounces of THREE D per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.

### SANITIZATION

To sanitize walls, floors and equipment in food processing plants, first clean thoroughly with a solution containing  $\frac{3}{4}$  ounce of THREE D per gallon of water. If surface is heavily soiled, use THREE D at a rate of 2-3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing  $\frac{1}{2}$  ounce of THREE D per gallon of water. Rinse with potable water after sanitization.
