

CAPTAN FP 700 R is a microfine wettable powder especially formulated for the treatment of seed, prior to storage and planting, to protect seed from molds and other fungi causing storage loss, and to protect seed from seed-borne and soil-borne fungi which cause seed decay and seedling blights.

COMPATIBILITY: CAPTAN FP 700 R can be used in combination with most commonly used seed protectants, both insecticides and fungicides as well as fertilizers. Do not use with strongly alkaline materials.

PLANT SAFETY: At the recommended dosage CAPTAN FP 700 R is non-injurious from the standpoint of seed injury or yield reduction, the germination of treated seed is frequently stimulated giving a superior result as compared to results from other seed fungicides.

GENERAL USE PRECAUTIONS

Read all directions before using and use only as specified on this label. Toxic to fish, keep out of lakes, streams or ponds, do not contaminate water by cleaning of equipment or disposal of wastes.

Dispose of excess treated seeds by burying with wastes.

IMPORTANT: Treated seed must not be used for human consumption nor as animal feed. Bags containing treated seed should be labeled:

TREATED SEED

DO NOT USE FOR FEED, FOOD OR OIL PURPOSES.

The Federal Government and some states have issued regulations for the application of special tags or labels to be affixed to bags containing treated seed.

DIRECTIONS FOR USE

SLURRY SEED TREATMENT: Pre-mix the recommended amount of this material with a little water in a bucket and make a thin paste, stir this paste into the required amount of water for the slurry equipment to be used.

NOTE: Seed treated by the slurry method should not be bagged until such time as the seed has had an opportunity to dry. Store in well ventilated areas. If seed is bagged when wet, heat is developed and impairs seed germination.

CONDITIONS OF SALE

1. GUARD CHEMICAL COMPANY warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed hereon. Manufacturer neither makes, nor authorizes any agent or representative to make, any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond the manufacturer's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by the manufacturer under 1 above), resulting from handling, storage, and use of this material.

GALLOTOX CAPTAN FP-700 R

A FUNGICIDE FOR PLANT DISEASE CONTROL

Active Ingredient	By Wt.
*Captan	70%
Inert Ingredients	30%

*N-[trichloromethyl]thio]-4-cyclohexene-1,2-dicarboximide,

EPA REG. NO. 615-39

CAUTION

KEEP OUT OF REACH OF CHILDREN

CAUSES SKIN AND EYE IRRITATION,
MAY BE HARMFUL IF SWALLOWED OR INHALED.

AVOID CONTACT WITH SKIN, EYE OR CLOTHING.
AVOID BREATHING DUST, USE WITH ADEQUATE VENTILATION.
WEAR RESPIRATOR, GOGGLES AND GLOVES,
WASH THOROUGHLY AFTER HANDLING.
DO NOT STORE OR USE NEAR FOOD OR FEED.

FIRST AID: IN CASE OF CONTACT IMMEDIATELY FLUSH EYES WITH PLENTY OF WATER FOR AT LEAST 15 MINUTES. CALL A PHYSICIAN. WASH SKIN WITH SOAP AND WATER.

PROTECT FROM EXCESSIVE HEAT -- STORE IN A COOL DRY PLACE.

**CONTAINER SHOULD BE DEPOSED BY
CRUSHING AND BURYING WITH WASTES.**

This product is toxic to fish. Keep out of any body of water.
Do not apply when weather conditions favor drift of spray from areas treated.
See other panels for directions for use and dosages.
