

Reg # 612-9

PRECAUTIONARY STATEMENTS**HAZARDS TO HUMANS
(AND DOMESTIC ANIMALS)**

CAUTION: Avoid contact with skin, eyes, or clothing. Harmful if swallowed or inhaled. Avoid breathing spray mist. Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. **NOTE TO PHYSICIAN: EMERGENCY INFORMATION - Call CHEMTREC (800) 424-9300.**

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from treated areas. Apply this product only as specified on the label.

This product is slightly toxic to bees exposed to direct treatment. Can be applied at any time but bees are temporarily inactivated by direct contact and some loss may occur. Consult your Agricultural Extension Service for further protective information.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container in locked storage areas. If a spill occurs, visible puddles or drops should be covered with a dry absorbent such as clay, sawdust, lime or soda ash. Sweep up and dispose of in a permitted disposal facility. Avoid cross-contamination with other pesticides and fertilizers during handling and storage. Do not store near heat or open flame. Protect from temperatures below 0°F. Not for use or storage in or around the home.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Do not reuse container.

In case of spill or accident, call CHEMTREC (800) 424-9300 day or night for assistance.

REENTRY STATEMENT

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. Do not enter treated areas without protective clothing until sprays have dried.

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information. Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. If oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written or oral warnings must include the following information:

"Caution - Area to be treated with Mineral Oil on (date of application). Do not enter without appropriate protective clothing until sprays have dried. If accidentally exposed, consult the Statement of Practical Treatment poster on the pesticide label for first aid and medical attention recommendations."

STATEMENT OF PRACTICAL TREATMENT**

If swallowed do not induce vomiting, call a physician immediately.

If on skin, immediately remove contaminated clothing and wash skin with plenty of soap and water.

If inhaled, remove victim to fresh air and get medical attention if symptoms persist.

If in eyes, rinse with plenty of water. Get medical attention if irritation persists.

WARRANTY LIMITATIONS AND DISCLAIMER

1. Unocal warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Unocal neither makes, nor authorizes any agent or representative to make, any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.

2. Critical and unforeseeable factors beyond Unocal's control prevent it from eliminating all risks in connection with the use of this material. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants and crops. Such risks occur even though the product is reasonably fit for uses stated herein and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from the handling, storage, and use of this material (except those assumed by Unocal in (1) above). Unocal shall not be liable for incidental or consequential damages.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling.

Read entire label. Use strictly in accordance with label directions; and in conformity with Federal and State regulations.

GENERAL USE INFORMATION

GAVICIDE-C is a straight-cut, narrow boiling range petroleum oil for use on citrus.

DILUTION: Fill spray tank with 1/2 the required amount of water for total amount of spray oil. Continue to agitate while adding balance of water.

Ground applications: Dilute recommended dosage in 50-2000 gallons of water.

Aerial applications: Dilute GAVICIDE-C at the rate of 10-30 gallons of water for thorough coverage (consult with local agricultural chemical authority for dilution and/or combinations with other pesticides). Use lower rate on susceptible varieties or varieties with conflicting directions, refer to the specific crop instructions.

COMPATIBILITY: GAVICIDE-C may be tank mixed with insecticides. To assure the compatibility of tank mixtures, mix the correct proportions in a small container. After thorough mixing, let the combination remain mixed or can be readily remixed compatible.

CHEMIGATION: DO NOT APPLY this product through any type of irrigation system.

APPLICATIONS: GAVICIDE-C is formulated as a "fast break" type in solution unless agitated constantly. Keep agitator running at all times. Apply so as to give total coverage to all parts of crop of trunks, limbs, twigs and leaves is essential for optimum results.

DO NOT APPLY this product within 30 days before or after a harvest.

DO NOT APPLY to trees weakened by disease, drought, drying applications.

DO NOT USE GAVICIDE-C when temperatures are above 95°F in volume applications or above 95°F when making high volume applications.

CROP RECOMMENDATION

Apply as pests appear. Adjust dosage within recommended range. Consider pest infestation, crop canopy size, crop condition, etc. GAVICIDE-C pressure continues.

**NAVEL ORANGES, VALENCIA ORANGES,
GRAPEFRUIT, AND LEMONS:**

To control Citrus Red Mite, Red Scale, Yellow Scale and Black Scale.

For dilute, high-volume coverage sprays, apply 1.0 to 1.4 gallons of water.

For concentrated, low-volume sprays, apply 10 to 22 gallons less than 90 gallons of total spray per acre.
