

# PINE OIL

## DISINFECTANT

ACC-  
7-19-68  
619-21

Reg. No.

**ACTIVE INGREDIENTS**  
PINE OIL, ANHYDROUS SOAP

**INERT INGREDIENT**  
WATER 10%

A fragrant cleaner and disinfectant for homes, boats, apartments, hotels, motels, office buildings, schools and other public buildings.

### DIRECTIONS

As a general cleaner and disinfectant use  $\frac{1}{4}$  cup (2 fl. oz.) per gallon of warm water. Apply so as to wet surfaces thoroughly. As a laundry sanitizer and fabric freshener add 6 fl. oz. to the washing machine at the beginning of the wash cycle. Add one or two cups full into the diaper pail to sweeten and condition the diapers for laundry. For the dogs bath use one tablespoon full per gallon of water.

For handyman degreasing and paint brush cleaning use cleaner straight from the container, soak as necessary then rinse. Also use full now and then into the sink drain to keep it free from greasefree, sanitary and sweet.

Keep out of reach of children.
