# FRUIT FIX CONCENTRATE 200

A Hormone Type Product  
 For Control of Preharvest Drop of  
 APPLES and PEARS

ACTIVE INGREDIENT:  
 alpha-Naphthaleneacetic Acid as the ammonium salt\* ..... 5.68 %  
 INERT INGREDIENT: ..... 94.32 %  
 \*Equivalent to 5.2% alpha-Naphthaleneacetic acid or 200 grams per gallon

**CAUTION:** Keep out of reach of children.  
 See side panel for other cautions.

1 GALLON

MANUFACTURED BY  
**THOMPSON CHEMICALS**  
 Div. of Wm. T. Thompson Co.  
 ST. LOUIS, MISSOURI 63132

Thompson Fruit Fix Concentrate 200 serves to control preharvest drop of Apples and Pears leading to larger harvests and reducing losses from windfall and knock-down.

**DIRECTIONS  
 FOR APPLES AND PEARS**

Spray trees thoroughly, wetting all fruit stems and adjacent leaves. Apply 7 to 14 days before harvest for apples and 5 to 7 days before harvest for pears. Do not spray within 5 days of harvest. This product becomes effective in 2 to 3 days after application and controls drop for 10 days to 4 weeks (less for McIntosh variety) depending on weather conditions. Do not make more than 2 applications and do not delay picking beyond optimum maturity.

**GROUND SPRAY** — For Apples, thoroughly mix 12 fl. oz. with 250 gallons of water (4.8 fl. oz. per 100 gals. water) to prepare a 20 ppm. spray. For pears, use a 10 ppm. spray obtained by mixing 12 fl. oz. with 500 gallons of water.

Drench the trees with the appropriate spray using up to 670 gallons per acre of this 10 ppm. spray which provides an equivalent of 25 grams of alpha-Naphthaleneacetic acid per acre. Apply to fruit 5 to 7 days before harvest. Do not make more than 2 applications. Do not apply within 2 days of harvest. (For an "oil-type" spray, add 1 pint of flowable summer oil for each 100 gallons of spray solution.)

**AIRPLANE SPRAY** — Mix 22 fl. oz. with 3 gallons of water and emulsify with 2 gallons flowable summer oil by thorough agitation. Apply 5 gallons of emulsion per acre of apples. For pears, use 11 fl. oz. of this product in 5 gallons of emulsion per acre.

**CAUTION:** Harmful if swallowed. Avoid contact of this concentrate with skin, eyes, and clothing. Avoid contamination of feed and feedstuffs.

**NON-WARRANTY:** Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
