ACTIVE INGREDIENTS:

Permethrin (25% concentrate) •
Pyrethrin (10% concentrate)

	20.0
	80.0
Total	100.0

- Equivalent to 12-(pentafluorophenyl)-4-(2-methoxytetrahydroindane)-1-one and 8-(pentafluorophenyl)-1-methoxy-4-methylpiperazine

USDA Registration No. 654-14

Harmful if swallowed. Avoid breathing spray mist. Avoid contact with skin. In case of contact may cause toxic symptoms. In case of contact with skin, wash with soap and water. Avoid contamination of food and feedstuffs.

NET CONTENTS:

Mix one part of concentrate with 9 parts odorless oil for a 2% solution for use where a water emulsion spray is not desirable.

Apply the 2% solution thoroughly to infested areas, baseboards, cracks and crevices and other hiding places. Apply locally to exposed surfaces where roaches will crawl when they come out of hiding.

Using the 2% solution, thoroughly treat ant trails and areas around door sills and window frames where ants may enter the premises. Treat openings around water pipes, heat ducts, and baseboards where ants may come out into rooms from wall spaces.
