even **KILLS** resistant roaches; also **KILLS** flies, mosquitoes, wasps, bees (outdoors), water bugs, brown dog ticks, silverfish, spiders, crickets, chiggers, flying moths, and carpet beetles.

CAUTION: KEEP OUT OF REACH OF CHILDREN. SEE SIDE PANEL FOR OTHER CAUTIONS.

NET CONTENTS: 1 QUART

ODORLESS — STAINLESS KILLS EVEN RESISTANT ROACHES, ANTS AND FLIES — RESIDUAL TYPE —

ACTIVE INGREDIENTS:

* 0.0 diethyl 0-(2-isopropyl 4-methyl-6-pyrimidinyl) phosphorothioate	0.500%
Pyrethrins	0.105%
Technical piperonyl butoxide (equivalent to .420% butyl carbityl) (6-propyl piperonyl ether and other related compounds)	0.525%
Petroleum Distillate	98.870%
Total:	100.000%

USDA REGISTRATION NO. 654-46

DIRECTIONS FOR USE

Spray infested surfaces only until wet.

Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

For treatment of localized infestations of these insects in outdoor areas where there is no vegetation, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as re-infestations occur.

CAUTION

Harmful if swallowed. Keep out of reach of children. Avoid contamination of feed and foodstuffs. Avoid repeated or prolonged inhalation and skin contacts; wash thoroughly after using. Do not use on household pets or humans. Do not store or use near heat or open flame.

ROACH AND ANT SPRAY

even KILLS resistant roaches; also KILLS flies, mosquitoes, wasps, fleas (outdoors), waterbugs, brown dog ticks, silverfish, spiders, crickets, chiggers, flying moths, and carpet beetles.

KEEP OUT OF REACH OF CHILDREN. SEE SIDE PANEL FOR OTHER CAUTIONS.

NET CONTENTS: 1 QUART

ODORLESS — STAINLESS KILLS EVEN RESISTANT ROACHES, ANTS AND FLIES — RESIDUAL TYPE —

ACTIVE INGREDIENTS:

1,1-dimethyl-2,2-bis(4-chlorophenyl) ethane
pyrimidinyl phosphorothioate
pyrethrin
Technical papers, patents and literature are available from the manufacturer.
Other treated commodities:
Petroleum Distillate

USDA REGISTRATION NO. 100-44

DIRECTIONS FOR USE

Spray infested surfaces dry until wet.

Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, electric stoves, etc. Spray other localized areas infested with these insects. Repeat treatment as required.

Take special care to treat all areas of the floor and baseboards. Spray the fringes of rugs and other carpets where insects may be found. Treat crevices, cracks, corners and infested areas of sheetrock. Repeat as necessary.

Thoroughly spray into all cracks around and under baseboards, window and door frames, wall cracks, empty quarters of household pets and unvacated areas of floors, etc. Repeat applications should be repeated as often as necessary to warrant a reinfestation. For best results, should be used in all quarters following treatment. Do not treat animals with this spray later.

For outdoor use only as an aid in reducing annoyance from insects. Spray outside surfaces of buildings and window frames wherever these insects may enter the room. Also treat areas around light fixtures, lamp globes, etc. Repeat as often as necessary where the insects are a continuing nuisance.

Treatment of localized infestation of the common household areas where these insects are present may be made by spraying for ants, the roach, wasps, and crickets. Repeat applications as often as necessary until the infestation is completely eliminated.

Handle with care. Keep out of reach of children. Avoid contact with eyes, nose and mouth. Avoid breathing of spray. Do not eat, drink, or use tobacco while using this product. Wash hands thoroughly after use. Do not use near heat or open flame.
