**NET CONTENTS:**

and crevices. Springs and mattresses should be sprayed thoroughly after the bed is dismantled, paying particular attention to cracks, crevices, tufts and seams on mattresses, wallpaper that is loose, loose moulding and any place where the bugs may hide. Repeat treatment as often as necessary.

**To Kill Clothes Moths and Carpet Beetles**

Take special precautions to see that cracks in floors and openings below baseboards as well as infested areas of carpets are thoroughly wetted with spray liquid. Wool lint and organic matter accumulating in these places will serve as breeding materials for such pests. Clothing to be stored should be cleaned and aired and sprayed carefully from a distance of one to two feet, taking care to see that seams and folds are wetted. Chests in which woollens are to be stored should be thoroughly sprayed before being filled with clothes. Closets should be sprayed liberally at least twice a month, directing the spray on the garments.

**To Kill Fleas**

Liberally spray all infested places—rugs and under rugs, basements, under porches, and wherever pet animals make their beds. Spray bedding of household pets. Do not spray animals directly. Repeat as required.
