

This industrial strength aerosol is a highly effective fly control of flying insects in restaurants, supermarkets, bakeries, dairies, hotels, motels, hospitals, homes, and other food handling and food processing establishments, stores and institutions.

The extra strength formulation, dispensed as a very fine mist, provides fast knockdown and control and is an economical solution to flying insect problems, when used as directed.

#### DIRECTIONS FOR USE

Fly, mosquitoes, gnats, and flying adult moths. Determine cubic feet of area to be treated. For example, a space 40' long x 25' wide x 10' high = 10,000 cubic feet. Close doors and windows. Point nozzle away from you and upward and direct aerosol mist to all parts of the area to be treated. Special attention should be given to windows and light, where these insects are attracted. Apply for 2 seconds per 1,000 cubic feet of space. Keep room closed for at least 15 minutes after treatment.

For best results in fly control, treat garbage, trash and returnable bottle storage areas, rest rooms and other places where these insects congregate on a regular basis.

Regular treatment of the entire establishment can be accomplished at the time of closing each day to eliminate a build up of fly populations.

#### ACTIVE INGREDIENTS

Pyrethrin	0.5
*Technical Piperonyl Butoxide	4.0
Petroleum Distillate	8.0
<b>INERT INGREDIENTS</b>	<b>87.5</b>
Total	100.0

\*Equivalent to 3.2 (Butylarbityl) (6 Propylpiperonyl) Ether and 0.8 of Related Compounds.

EPA Reg. No. 654-111-AA  
EPA Est. 654-IN-1

MANUFACTURED BY

**FEDERAL CHEMICAL COMPANY, INC.**

INDIANAPOLIS, INDIANA 46205

FCC 74

#### CAUTION

Avoid contamination of food and foodstuffs. Remove or cover unpackaged food and utensils during treatment. Use in food processing areas only when not in operation. Cover or clean food processing work surfaces before re-use.

Do not use in nurseries or rooms where infants, ill or aged are confined. Do not remain in treated area. Ventilate the area well after reopening.

Remove pets, birds and cover fish aquariums before spraying.

#### WARNING

Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° may cause bursting. Discard empty cylinder in a safe place. Never throw container into fire or incinerator.
