

Directions for Use

Use a calibration of Federal 10 to use this product in a manner consistent with its labeling.

For Control of Roaches: German American Oriental Brown Banded Asian Crack & Crevice Roach. This is specifically designed with an injection tube which enables the user to apply insecticide in cracks, crevices and wall voids where roaches thrive and breed. The method of control not only places the insecticide where it is needed most, but also lessens the possibility of removal of the insecticide by washing or mopping, thus making it more effective and longer lasting.

THE INJECTOR BUTTON IS PLACED ON VALVE STEM WITH LIGHT DOWNWARD PRESSURE KEEP INJECTOR TIP POINTED AWAY FROM FACE AND EYES. INSERT INJECTOR TIP INTO CRACKS, CREVICES AND HOLES IN AREAS WHERE THESE INSECTS HAVE BEEN SEEN. SPRAY APPROXIMATELY A 1-3 SECOND BURST PER FOOT TREATED. DEPEND ON THE SERIOUSNESS OF INFESTATION FOR SPOT APPLICATION ONLY. DO NOT USE AS A SPACE SPRAY.

APPLICATION WITHIN HOMES, APARTMENT BUILDINGS, STORES AND WAREHOUSES.

Apply a small amount of material

generally into cracks and crevices, and do not bend back boards in to sink, or doors, refrigerators, cabinets, picture frames, P.O.S. furniture, doors, window frames, and wall voids. (material will not soak through). Do not spray through holes or in contact with food or food processing surfaces or to be sprayed into the air.

To control silverfish, spiders and crickets, apply material as directed above into holes, cracks, and crevices where the insects are a problem. Repeat application if needed.

APPLICATION WITHIN FOOD HANDLING ESTABLISHMENTS

Use in cracks and crevices and treatment only, and areas of contact with. Apply small amounts of material as directed above in areas where roaches are a problem. Do not allow the material to come in contact with food or food processing surfaces or be sprayed into the air.

Application of this product in food handling establishments other than in cracks and crevices, treatment of the material, should be in accordance with the label directions for use. Do not use in contact with food or food processing surfaces or be sprayed into the air.
