Ms. Patricia Samuel
Prentiss Drug & Chemical Co., Inc.
C.B. 2000
Floral Park, NY 11001

FEB 24 1988

Dear Ms. Samuel:

SUBJECT: Amendments - Revise manufacturing-use labels
in accordance with Lindane Registration Standard
Prentox Lindane Technical Powder
EPA Reg. No. 655-28
Prentox Lindane Technical Crystals
EPA Reg. No. 655-393
Your submission dated February 18, 1988

The amendments referred to above, submitted in connection with registrations under the Federal Insecticide, Fungicide, and Rodenticide Act, are acceptable provided the following revisions are made prior to release for shipment:

1. Revise the ingredient statement to declare "Active Ingredient" instead of "Active Ingredients", since there is only one, and revise the declaration of lindane to "Lindane (gamma isomer of benzene hexachloride)", as indicated on page 26 of the Lindane Registration Standard.
2. Submit the product information sheet referred to on each of the above labels.
3. Revise the "Environmental Hazards" text to appear as indicated on page 27 of the Lindane Registration Standard. Specifically:

This pesticide is toxic to fish, birds, and other wildlife. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

BEST AVAILABLE COPY

4. Revise the "Pesticide Disposal" text by deleting "spray mixture,".
(see page 27 of the Lindane Registration Standard).

Stamped copies of the labels are enclosed for your records. It is understood that the subject submissions, which are being accepted at this time, supersede the incomplete labels for the same products which had been submitted November 15, 1985 in response to the Lindane Registration Standard.

Please submit five copies of finished labeling for each product prior to release for shipment under the revised amended labels.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division
