Dear Mr. Sanchez:

Subject: Amendment - Revise Ingredients Statement
Prentox 50% DDVP E.C.
EPA Registration No. 655-196
Your submissions dated October 2, 1984

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided five copies of revised finished labeling is submitted prior to release of product using the revised formula dated July 2, 1984. A stamped copy of the label is enclosed for your records.

Please submit five copies of the Technical Bulletin referred to on your labeling. Although there have been several accepted labels referring to this bulletin, there is no copy of it in this product's registration file.

It is understood that the product pH is being determined and will be submitted in the near future. It is noted that this information has not been received by the Agency in the three months that have elapsed since the subject submission.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS**

DANGER: Poisonous if swallowed, inhaled, or absorbed through skin or eyes. Do not get in eyes or on skin. Do not breathe fumes. Rapidly absorbed through skin, wear natural rubber gloves, waterproof protective clothing, and goggles when handling. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part II.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

INSTRUCTIONS FOR FORMULATION

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

This pesticide may be used only for the formulation of an insecticide. Formulators using this product are responsible for obtaining EPA registration for their formulated products. Refer to Technical Bulletin for instructions for formulating and other information.

NOTE TO THE PHYSICIAN:

SYMPTOMS: Symptoms include weakness, headache, tightness in chest, blurred vision, non-reactive pinpoint pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal cramps.

TREATMENT: Atropine is the specific therapeutic antagonist of choice against parasympathetic nervous stimulation. If there are signs of parasympathetic stimulation, atropine should be injected at 10 minute intervals, in doses of 1 to 2 milligrams, until complete atropinization has occurred. Morphine is contraindicated. Clear chest by postural drainage. Oxygen administration may be necessary. 2-PAM is also antidotal and may be administered in conjunction with atropine. Observe patient continuously for 48 hours. Repeated exposure to cholinesterase inhibitors may, without warning, cause prolonged susceptibility to very small doses of any cholinesterase inhibitor. Allow no further exposure until cholinesterase regeneration has been attained, as determined by blood test.

STATEMENT OF PRACTICAL TREATMENT

If swallowed — Call a physician immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE vomiting unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled — Move victim to fresh air. Call a physician immediately.

If on skin — Remove contaminated clothing and wash immediately with soap and water. Call a physician immediately.

If in eyes — Flush eyes for at least 15 minutes with water. Call a physician immediately.

STORAGE AND

Do not contaminate water, for disposal. Over-dumping is prohibited.

STORAGE: If container is damaged, repositioning the container or repairing the leaks. Take care with pesticides and wear protective clothing. Liquids, wear protective equipment to prevent contact with the product. Spilled areas with generous material, such as clay, diatomaceous earth, or sawdust. Sweep the contaminated area and shovel and put the sweepings in a similar drum or glass container. Dispose of wastes as below. Do not pour or spill near heat or open flame.

PESTICIDE DISPOSAL: Pesticide mixtures, or rinsate is a violation of Federal law. Do not dispose of wastes in a waterway, sewer, or other body of water. For instructions, contact your local Environmental Control Agency or representative at the nearest office.

CONTAINER DISPOSAL: Triple rinse, then offer for recycling or reuse, and dispose of in a sanitary manner according to procedures approved by state and local authorities.

NOTE TO FORMULATORS:

Certain organo-phosphate pesticides shown to cause staining and discoloration when mixed with certain sensitive dyes from this concentrate should be avoided. Contact with carpeting by spray application.
