Perfume	0.50%	" "
Propellant	75.00%	" "

*Equivalent to 0.80% of (butylcarbityl)(6-propylpiperonyl) ether and 0.20% of related compounds.

**Terpene polychlorinates (66% chlorine)

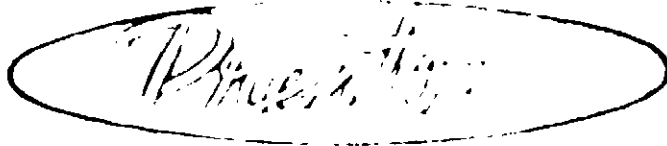

BEST DOCUMENT AVAILABLE

Prentiss Drug & Chemical Co., Inc.

100 WEST 111 STREET NEW YORK 100

950 BROADWAY NEW YORK 100

DIRECTIONS FOR USE

Point the nozzle at the area to be treated for moths and press the button down. Hold the unit 3 feet from the clean clothing to be treated. Spray in short bursts. Mist all seams, pleats and folds. For best results, repeat every 30 days on woolens and fabrics.

Spray empty closets for 30 to 40 seconds before storing clothes. Treat wall and ceiling surfaces lightly where possible. Repeat as required.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Do not store or spray near heat
or open flame. Do not puncture.
Do not incinerate.
