## DIRECTIONS FOR USE: (Cont.)

**ROACHES, WATERBUGS, ANTS, BEEBUGS, SILVERFISH:** Use 3 to 4 ounces for each 1,000 cu. ft. of space, directing the spray to contact as many insects as possible. Pay particular attention to baseboards, wall moldings, woodwork, and pipe openings, breeding places and nests.

**MOTHS:** Use 1-2 ounces per 1,000 cu. ft. of space. When spraying clothes in storage for adult moths, separate clothing, for the larvae pay particular attention to seams and folds of garments. Clothing should be sprayed individually. For storing clothing in chests - first treat as per above, and also spray storage container before packing. Repeated monthly applications are advisable.

**FLIES, MOSQUITOES, GNATS:** Use 1/2 oz. per 1,000 cu. ft. of space, directing spray toward ceiling.

**BEEBUGS:** Use 1-2 oz. per 1,000 cu. ft. of space. Spray moldings, baseboards and cracks. Also spray the bedstead paying particular attention to cracks and crevices, spray springs and mattresses as well.

**FOR INSECTS AFFECTING STORED FOOD, FLOUR, GRAIN AND CEREALS - DO NOT SPRAY DIRECTLY ON EXPOSED FOOD, FLOUR, GRAIN OR CEREALS.** Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation.

To kill the exposed stages of Indian meal moth, Angoumois grain moth, chocolate moth, carpet beetle, cigarette beetle, flat grain beetle, confused flour beetle, saw-toothed grain beetle, rice weevils, weevils, use 3-4 oz. per 1,000 cu. ft. of space directing the spray so as to contact the insects. Pay particular attention to cracks, crevices, and other hiding places. Repeat treatment as required.

**KILLS INSECTS ONLY WHEN THE SPRAY CONTACTS THEM.**

Sanitation is necessary. Clean and remove deposits of food, grain and dust from storage areas. Clean conveyor and handling equipment.
