Harmful if swallowed. May be absorbed through skin. Avoid contamination of food and feed. Avoid inhalation of dust. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling and before eating or smoking. Do not apply where children are likely to come in frequent contact with treated surfaces. Do not contaminate food, food containers or cooking utensils.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE DISPOSAL: PESTICIDE, SPRAY MIXTURE OR RINSATE THAT CANNOT BE USED ACCORDING TO LABEL INSTRUCTIONS MUST BE DISPOSED OF ACCORDING TO FEDERAL, STATE OR LOCAL PROCEDURES UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT.

CONTAINER DISPOSAL: DISPOSE OF LINERS ACCORDING TO APPROVED FEDERAL, STATE OR LOCAL PROCEDURES UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT. DO NOT REUSE CONTAINER. DISPOSE OF IN A SANITARY LANDFILL OR BY INCINERATION IF PERMITTED BY STATE AND LOCAL AUTHORITIES.

APPLICAZIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS LIMITED TO CRACK AND SERVICE OR SPOT TREATMENT ONLY

BEST DOCUMENT AVAILABLE

ACTIVE INGREDIENT:

0,0-dimethyl-0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 2.0%

INERT INGREDIENTS: 98.0%

TOTAL: 100.0%

DIAZINON[®] is a registered trademark of CIBA-GEIGY CORPORATION

KEEP OUT OF REACH OF CHILDREN

CAUTION

Statement of Practical Treatment

If swallowed— Call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled— Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin— Remove contaminated clothing and wash affected areas with soap and water.

If in eyes— Flush eyes with plenty of water. Call a physician if irritation persists.

DIRECTIONS FOR USE (CONTO.)

NON-FOOD AREAS DIRECTIONS FOR USE

RESISTANT & NON-RESISTANT COCKROACHES (WATERBUGS): Dust thoroughly all areas where roaches crawl and hide, such as around water pipes, in cracks and crevices, under and behind cabinets, refrigerators and sinks. Repeat application as necessary.

ANTS & SILVERFISH: Dust thoroughly areas around water pipes, in cracks, under and behind cabinets, refrigerators, and sinks, and around doors, windows, and bookcases. Repeat application as necessary.

CARPET BEETLES: Dust along baseboards, under carpeting, rugs, furniture and wherever these insects are seen or suspected. Repeat application as necessary.

SPIDERS & SCORPIONS: Dust around windows, doors and along baseboards. Make spot applications to surfaces over which these pests crawl, particularly in crawl spaces under houses or buildings. Repeat application as necessary.

FOOD HANDLING ESTABLISHMENTS—Places other than private residences in which exposed food is held, processed, prepared or served. Apply Diazinon 2D with a bulb duster or other suitable equipment as either a spot or crack and crevice treatment as directed below. Limit spot treatments to covered or enclosed floor surfaces such as voids in equipment and cabinet bases where pests have been seen or where they are suspected of hiding. Limit individual spot treatments to an area no larger than 20% of the floor and wall surface. Do not apply to areas, surfaces, or utensils which will come in contact with food. Take extreme care to avoid contamination of food or food contact surfaces or introducing the material into the air.

FOOD AND NONFOOD AREAS: Spot Treatment—As a spot treatment, dust floor areas around water pipes and door frames; surfaces beneath cabinets, refrigerators, sinks, stoves, storage areas, and similar floor areas where cockroaches, ants, spiders, and silverfish hide.

FOOD AND FEED AREAS APPLICATION LIMITED TO CRACK AND CREVICE & SPOT TREATMENT ONLY.

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation) would be considered a food area.

As a crack and crevice treatment, use a bulb duster or other suitable equipment and apply dust directly into areas such as expansion joints between different elements of construction and between equipment bases and the floor, wall boards or hollow equipment legs.

These treatments also aid in the control of pantry pests (exposed stages of sawtoothed grain beetle, flour beetle, rice weevil, cigarette beetle, drugstore beetle, and Indian meal moth) which come into contact with treated surfaces. Repeat applications as necessary.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
Open dumping is prohibited.

STORAGE: If container is damaged: STOP any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear proper protective gear. On cleanup, wear protective equipment as required to prevent contact with the product. Sweep on to a shovel and put the sweepings into a salvage drum. Dispose of wastes as below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If carton is contaminated and cannot be reused, dispose of in same manner.
