in EPA Label Dated:

FEB 29 1984

Under the provisions of the
Federal Insecticide, Fungicide,
and Rodenticide Act, this product
as shown on the label is a pesticide
registered under EPA Reg. No.
655-503

Each partical of the Warfarin in this product has been specifically coated with a material that reduces detection of the Warfarin by the rodents at the time the bait is consumed. The coating may help assure greater acceptance of the bait in cases where rodent awareness of uncoated Warfarin is responsible for low bait acceptability.
