Prentox Co-Rax Concentrate
EPA Registration No. 655-503

PRENTOX® CO-RAX™ CONCENTRATE

A Rodenticide for formulating and repackaging use only

For formulation only into registered end-use rodenticides to kill Norway rats, roof rats, and house mice.

ACTIVE INGREDIENT:

Warfarin, 3-(alpha-Acetyl benzyl)-4-hydroxycoumarin 0.5%

INERT OTHER INGREDIENTS: 99.5%

TOTAL 100.0%

PRENTOX® - Registered Trademark of Prentiss Incorporated
CO-RAX™ - Trademark of Prentiss Incorporated

KEEP OUT OF REACH OF CHILDREN
CAUTION
STATEMENT OF PRACTICAL TREATMENT FIRST AID

If swallowed: Call a physician or Poison Control Center. Give a glass or two of water and induce vomiting by giving syrup of ipecac, if available, or by touching finger to back of throat. Do not give anything by mouth or induce vomiting if patient is unconscious.

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

If on skin: Wash off with soap and water.

See side panel for additional precautionary statements.

Each particle of the Warfarin in this product has been specifically coated with a material that reduces detection of the Warfarin by the rodents at the time the bait is consumed. The coating may help assure greater acceptance of the bait in cases where rodent awareness of coated Warfarin is responsible for low bait acceptability.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Keep away from humans, domestic animals and pets. Exposure to pregnancy should be avoided. Warfarin may cause harm to the fetus, including possible birth defects. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. When mixing baits, wear a dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any N, R, P or HE filter and rubber gloves. If on skin, wash with soap and water.

NOTE TO PHYSICIAN

If ingested, administer Vitamin K¹ intramuscularly or orally, as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS

This product is toxic to mammals and birds. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Only for formulation into a Rodenticide for (1) The following uses: control of Norway rats, roof rats, and house mice in and around homes, industrial buildings, and similar man-made structures; (2) Uses for USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration; and (3) Uses for experimental purposes that are in compliance with USEPA requirements.

a/a

Formulators using this product are responsible for providing data to support their registrations.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in original container in a dry area not accessible to children, pets, domestic animals or wildlife. If container is damaged: Stop any leaks by repositioning the container or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spills, wear protective equipment as required to prevent contact with the product or its vapors. Sweep onto a shovel and put the sweepings into a salvage drum. Dispose of wastes as specified below.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal or discharge of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into applicator equipment. Then dispose of liner and carton in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

For information on this pesticide product (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Telecommunications Network at 1-800-858-7378.
