**DIRECTIONS FOR USE: (Cont'd)**

**APPLICATION WITHIN FOOD HANDLING ESTABLISHMENTS (Places Other Than Private Residences in Which Food is Held, Processed, Prepared or Served) INCLUDING, BUT NOT LIMITED TO, RESTAURANTS, GROCERY STORES, BAKERIES, BOTTLING PLANTS, CANNERIES & GRAIN MILLS:**

Use as a spot treatment to control cockroaches (including strains resistant to certain other insecticides) ants crickets, firebrats silverfish and spiders in and around both food and non-food areas by application as a coarse, low pressure (20 psi or less) spray to localized areas where the above pests have been seen or are suspected of hiding or entering Apply only enough spray to thoroughly cover the surfaces treated using special care to avoid unnecessary runoff Do not introduce the spray into the air or allow the spray to contact food or food-contacting surfaces Areas treated may include dark corners of rooms and closets along and behind baseboards beneath and behind stoves refrigeration units and similar food preparation areas and equipment floor drains and around plumbing and other utility installations For ants apply to ant trails and wherever these pests may find entrance Spot treatment may encompass crack and crevice treatment by applying small amounts of material directly into openings leading to voids and hollow spaces in walls, equipment legs and bases or which occur at points between different elements of construction or between equipment and floors Equipment capable of delivering a pin stream of insecticide should be used Repeat treatment as needed but not more often than once every 7 days in restaurants and similar food service establishments or more often than once every 14 days in other types of food handling establishments In case of emergency (call back) may be applied after 2 days from last treatment but emergency use should be limited to once per month

APPLICATION OF THIS PRODUCT IN FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND OR CRACK AND CREVICE TREATMENT ARE NOT PERMITTED

**APPLICATION WITHIN RESIDENTIAL BUILDINGS INCLUDING HOMES AND APARTMENT BUILDINGS & WITHIN NON-FOOD AREAS OF INDUSTRIAL, INSTITUTIONAL, AND COMMERCIAL BUILDINGS INCLUDING HOSPITALS, STORES, MANUFACTURING PLANTS AND WAREHOUSES: FOR SPOT TREATMENT ONLY —**

Apply as a coarse spray or with a paint brush to localized areas where cockroaches (including strains resistant to certain other insecticides), ants, clover mites, crickets, firebrats, silverfish and spiders are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations For ants apply to ant trails, also around doors and windows and wherever these pests may find entrance For clover mites use a 0.5% spray only **NOTE:** A period of 4 to 7 days is normally required for maximum effect on cockroaches

**BROWN DOG TICKS** — Apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present Fresh bedding should be placed in animal quarters following treatment Do not spray pets with this product

**FLIES & MOSQUITOES** — Use only on outdoor surfaces Spray outside surfaces of windows and door frames in areas where these pests may enter and in the dead space corners & localized resting areas such as under eaves, porches, partitions & in garages where these insects may congregate Flies & mosquitoes coming to rest on treated surfaces will be killed Repeat treatment when necessary

**REGISTERED**  
OCT 12 1979  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 655-574
