RESTRICTED USE PESTICIDE

The use of this product may be hazardous to to your health. This product contains lindane, which has been determined to cause tumors in laboratory animals. Risks can be reduced by closely following the use directions and precautions, and by wearing the protective clothing specified elsewhere on this label.

FOR RETAIL SALE TO AND USE BY CERTIFIED APPLICATORS OR PERSONS DIRECT SUPERVISION has been determined to cause tumors in laboratory animals. Risks can be reduced by closely following the use directions and precautions, and by wearing the protective clothing specified elsewhere on this label.

APPLICATOR'S CERTIFICATION.

FOR RETAIL SALE TO AND USE BY CERTIFIED APPLICATORS OR PERSONS DIRECT SUPERVISION has been determined to cause tumors in laboratory animals. Risks can be reduced by closely following the use directions and precautions, and by wearing the protective clothing specified elsewhere on this label.

For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to infield areas below the mean high water mark. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposing of wastes.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

May be absorbed through skin. Harmful if swallowed. Avoid inhalation of spray mist. Avoid skin contact. In case of contact, wash immediately with soap and water. Avoid contamination of food and foodstuffs. Food utensils such as spoons should not be used for food purposes after use in measuring pesticide. Do not use on household pets and humans. The area being treated must be vacated by unprotected persons.

Personal Protective Equipment

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category G on an EPA chemical resistance category selection chart.

Applicators and other handlers must wear coveralls over short-sleeved shirt and short pants, chemical-resistant gloves, such as barrier laminate, or viton, chemical-resistant footwear plus socks, chemical-resistant headgear for overhead exposure, and a respirator with either an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14C).

Mixers and loaders must wear coveralls over short-sleeved shirt and short pants, chemical-resistant gloves, such as barrier laminate, or viton, chemical-resistant footwear plus socks, chemical-resistant headgear for overhead exposure, chemical-resistant apron when mixing or loading, and a respirator with either an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14C).

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Birds and other wildlife feeding in treated areas may be killed. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to infield areas below the mean high water mark. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposing of wastes.

USER SAFETY

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under

EPA Reg. No. 065-GA-1
This pesticide is highly toxic to bees exposed to direct treatment or to residues remaining on the treated area. Do not apply when bees are actively visiting the crop, cover crop, or weeds blooming in the treatment area. Applications should be timed to provide the maximum possible interval between treatment and the next period of bee activity.

PHYSICAL AND CHEMICAL HAZARDS:
Do not use or store near heat or open flame.

DIRECTIONS FOR USE
Do not apply this product through any type of irrigation system. AERIAL APPLICATION OF LINDANE IS PROHIBITED.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Agricultural Use Requirements
Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and the handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow workers entry into treated areas during the restricted entry interval (REI) of 24 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is covers over short-sleeved shirt and short pants, chemical-resistant gloves, such as barrier laminate, or vinyl, chemical-resistant footwear plus socks, chemical-resistant headgear for overhead exposure.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal. Open dumping prohibited.

STORAGE: If container is damaged, stop any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spilled liquids, wear protective equipment as required to prevent contact with the product or its vapors. Cover the spilled areas with generous amounts of absorbent material, such as clay, diatomaceous earth, sand, or sawdust. Sweep the contaminated absorbent onto a shovel and put the sweepings into a salvage drum. Dispose of wastes as below. Place any leaking container into a similar drum or glass container. Do not store, use, pour or spill near heat or open flame.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

DO NOT ALLOW CHILDREN TO HANDLE OR APPLY THIS PRODUCT.
NOTE: PRODUCT IS NOT FOR USE FOR FOREST TREES OR SPRAYING OF FELLED LOGS.

Insect Pests | Dosage | Time to Apply
--- | --- | ---
Pecan trees | Pecan Phytophthora | 0.05% | Apply by air blast sprayer when the pecan buds are beginning to burst, early to mid-April. Make only one application. DO NOT GRAZE TREATED AREAS. Do not apply within 210 days of harvest.

**ORNAMENTALS**

Flowers (Carnations, Chrysanthemums, Coleus, Daisies, Gardenia, Geraniums, Leathertease, Nasturtiums, Pansies, Petunias, Roses, Gardenia, Geraniums, Leafhoppers, Hibiscus, Nasturtiums, Petunias, Sweet Peas, Zinnias) | Aphids, Blister beetles, Thrips | 0.03% | Apply when insects appear. Repeat as necessary.

Bulbs (Daffodil, Gladiolus, Hyacinths, Iris, Lilies, Narcissus, Tulips) | Aphids, Bilt fly, European corn borer, Iris borer, Thrips | 0.03% | Apply when insects appear. Repeat as necessary.

Azaleas, Camellias, Heather, Lilacs, Rhododendrons, Roses | Aphids, Black vine weevil, Cucumber beetles, Thrips, White Fly | 0.03% | Apply when insects appear. Repeat as necessary.

Dogwood, Rhododendrons, Lilac | Dogwood Borer, Rhododendron Borer, Lilac Borer | 0.03% | Make 3 to 5 applications 7 to 10 days apart in May and early June.

Elm (English and Scotch), Birch Locust | Leaf Miners | 0.03% | Apply when small miners appear in early May to mid-June. Apply when small miners appear in early July.

Maple, Aspen, Poplar, Ash, Willow, Elm Locust | Aphids, Bark Beetle, Weevil, Botrytis | 0.15% | Apply in spring when buds begin to swell. Repeat in 10-14 days. Siri's - Apply to foliage when Aphids are present during summer. Repeat 3-5 days. Soak trunks to run-off.

**VEGETABLES**

Tomatoes | Aphids | 0.03% | Do not apply after fruits start to form. Apply 1 gallon of finished spray per 150 sq. ft. of beds.

**LIVESTOCK, INSECTICIDAL PAINT, STRUCTURAL PEST CONTROL**

Beef Cattle | Insect Pest | Dosage | Application
--- | --- | --- | ---
| Hornflies | 0.03% | Spray thoroughly. Repeat as necessary. Do not spray calves under 3 months of age.

Back Rubbed Units (For Beef Cattle) | Hornflies | 0.2% (lale #2 fused oil tempered of water) | Treat buckets wrapped with 1 gal/10 lb. bucket. Be sure to treat every 24 weeks. Do not move cattle with bucket access to the bucket within 20 days of slaughter or animals under 6 months of age.

DO NOT ALLOW CHILDREN OR PETS ON TREATED AREAS UNTIL SPRAY HAS DRIED.

**LIVESTOCK — Precautions:** Do not spray livestock within 30 days of slaughter. Do not treat any animal under 3 months of age. Do not treat ewes within 14 days of farrowing, nor for a minimum of 21 days thereafter. Do not apply to dairy cattle or to dairy goats. Do not treat animals in cold or stormy weather. Do not treat sick or overfed animals.

**Protections:** Use a sprayer capable of maintaining a pressure of 200 to 400 pounds per square inch. Keep direct spray out of animals eyes. Measure accuracy — swt thoroughly before use.

- **Spray in Livestock Buildings and Pens:**
  - Flies, Roaches, Spiders, Ants, Mosquitoes
  - 1 gallon/500 square feet surface area or until thoroughly wet (about 20 minutes).
  - Remove animals before spraying.
  - Do not contaminate milk or milking equipment, feed or drinking water. For crawling insects apply thoroughly to cracks, crevices, baseboards and other hiding places.
  - Apply with a brush on and around hiding places as a spot treatment. May blister paint. Do not use in the home.
  - Do not contaminate milk, milking equipment, feed or drinking water.

- **Structural Support:**
  - Wood infesting beetles of Lyctidae, Anobiidae, Cerambycidae families
  - Treat large areas of support wood with a coarse spray until surfaces are wet (not to point of run off). Brush onto small areas. Do not apply as a mist.
  - For best results apply to dry wood.
The use of this product may be hazardous to your health. This product contains lindane, which has been determined to cause tumors in laboratory animals. Risks can be reduced by closely following the use directions and precautions, and by wearing the protective clothing specified elsewhere on this label. FOR RETAIL SALE TO AND USE ONLY BY CERTIFIED APPLICATORS OR PERSONS UNDER THEIR DIRECT SUPERVISION AND ONLY FOR THOSE USES COVERED BY THE CERTIFIED APPLICATOR'S CERTIFICATION.
